Order For Guns For The Philippines Cancelled

NAVY YARDS HIT

Japan Stops Work On Eight Capital Ships

(U. S. Navy Radio through Reuter)

Charleston, S. C., Feb. 13.—Some of the employees of the Naval Ordnance Plant have been ordered to be laid off until June 30. Only the employees who are absolutely necessary for the maintenance and protection of the plant are being kept.

Washington, Feb. 11.—The Navy Yard employees of the Naval Ordnance have been granted temporary leave without pay.

(China Press Service)

Washington, Feb. 12.—The Navy Department has announced that 4,000 Navyyard employes have been released as a result of the suspension of work on capital ships under construction. No further reductions are expected.

Washington, Feb. 11.—Secretary Weeks has cancelled orders for new guns for fortifications in the Philippines.

The step was being taken, he said, as evidence of the good faith of the United States in carrying out the spirit and letter of the Pacific Treaty.

He said that the fortifications in the Philippines will be kept in "useable condition," and will not be permitted to deteriorate.

Army officials had recently ordered twelve 9.2 inch howitzers to replace the old weapons at present in use in the Philippines. The new guns were loaded on the Army transport, Wheaton which was prepared to sail for Manila when its orders were revoked. It had been planned to supplement these howitzers with fourteen three-inch anti-aircraft guns.

Tokio, Feb. 11.—The Navy Department has ordered that work be stopped on eight battleships and battlecruisers now on the ways which are to be scrapped. Construction of auxiliary craft permitted under the naval agreement is to be rushed in order to provide relief for the unemployment situation.

Tokio, Feb. 11.—Premier Takahashi told the House of Peers that in his opinion the Washington Conference agreements mark the first step toward a "real, lasting peace." The opposition continues to attack the treaties, claiming that Japan lost prestige by signing them, but the people generally seem to approve the pacts.

England's Prince Sees Deserted City

(Reuter's Service)

Agra, Feb. 13.—The Prince of Wales broke the journey to Agra early this morning to visit Fatehpur Sikri, a wonderful city built by Akbar, which has been deserted since 1599. His Royal Highness spent some time among the splendidly preserved palaces, mosques and houses and saw the natives from the district dive into a great well from the roof of the Buland Darwaza coming down feet first from a height of 90 feet.

Proceeding to Agra the Prince spent the rest of the day sightseeing, visiting the Taj Mahal in the afternoon.

His Royal Highness leaves for Delhi tomorrow morning.

London, Feb. 12.—Reuter's Special Correspondent with the Prince of Wales telegraphs:

The Prince of Wales left Gwalior for Agra this evening. His Royal Highness expressed regret to the Maharaja on leaving his beautiful state in which he had spent four most enjoyable days. The Prince's reception was thoroughly cordial at the hands of the entire population. This morning the Prince of Wales attended Divine Service, the Bishop of Nagpur officiating.

BOATS CRASH

(U. S. Navy Radio through Reuter)

Los Angeles, Feb. 11.—Three speed-boats and three navy shore-boats were destroyed, and a ferry, one navy-float and one eagle-boat were damaged when the U. S. Shipping Board freighter Stockton crashed into the Fifth Street wharf.

PIUS TAKES OFFICE AS 265TH POPE

Thousands See Solemn Ceremony At St. Peter's

(Reuter's Service)

Rome, Feb. 12.—The solemn ceremony of the coronation of the Pope was held in St. Peter's Cathedral this morning. The basilica was crowded by many thousands of people, including members of the Pope's family, members of the Diplomatic Corps accredited to the Holy See and representatives of the Order of Malta.

The Pope was borne on the Sedia Gestatoria and was preceded by the College of Cardinals and prelates attached to the Pontifical Court.

His Holiness entered St. Peter's at 9 o'clock. The Pontifical Mass was then chanted, after which Cardinal Lega, as First Cardinal Deacon, placed the tiara on the Holy Father's head.

The Pope then gave his benediction and returned to the Vatican in the same manner as he had come.

(Trans-Pacific Public Ledger—Exclusive To The China Press)

Berlin, Feb. 11.—The new Pope's record as nuncio to Warsaw and his previous utterances that have been construed as pro-French and anti-German has perturbed the German people greatly, even the Catholics fearing a change in the attitude of the Vatican toward Germany.

It was especially feared that he would be overwhelmingly pro-Polish. But it is now pointed out that the late Pope Benedict, while a Cardinal, was also among the anti-Germans, while as Pope he conciliated the Germans.

Now Pius XI has taken occasion, almost immediately upon his accession, to allay the fears of the German Catholics, by sending a special message to the Catholics of Cologne that leaves little doubt that whatever his utterances while in Warsaw, his attitude in Rome is to be that of an impartial pastor and head of the church to whom any Catholic can turn assured of an impartial decision.

STERLING RATE GOES UP, BETTER TIMES SEEN

Rise Has Particularly Good Effect In America

PRICES STEADIER

Stiffening Regarded As Sign Of Better World Outlook

(Trans-Pacific News Service Exclusive To The China Press)

New York, Feb. 11.—The marked rise in sterling has had a great effect for the better on conditions in America, helping the rise in peices of American grain and sustaining cotton at a time when a drop was threatened, as well as promising an increase in the exports of American goods to Europe and stimulating the course of transportation.

The reason for the rise is inexplicable. Probably the controlling factor is the adjustment of the British trade balance. Great Britain has succeeded in reducing her excess of imports to something like prewar figures and has added to her revenue from shipping and other ocean services.

American sentiment on the British financial position is also changing with a bullish feeling taking the upper hand. Satisfactory British trade returns and the nationally observed reduction in expenditures, as well as the efforts of the government to promote economy and the recent boom in the better classes of securities in the London market have had a large part in contributing to the change of American opinion.

All of these factors have combined to lead those people who are short of sterling to cover, and others to hold for the rise in the market. The stiffening in sterling is heralded as a sign of world improvement, principally American.

(Reuter's Service)

London, Feb. 1.—The British revenue returns for January show that exports amounted to £63,146,949, the highest figure since March 1921 and imports amounted to £76,488,231, which is much lower than in any month of 1921.

S. AFRICAN MINE STRIKERS REJECT SMUTS' PROPOSAL

Labor Leader Hints At Effort To Overthrow Ministry

(Reuter's Service)

Johannesburg, Feb. 12.—The unyielding spirit of the miners was testified today at a meeting at which 4,000 men declared against Premier Smuts's proposals.

The authorities have announced that picketting will be prohibited in connection with the proposed resumption of mining tomorrow.

London, Feb. 12.—There have been important developments in the Rand mining strike. General Smuts has issued a statement declaring that the strike must be ended without delay and that the final settlement must be left to Parliament, after an enquiry by an impartial board appointed by the Government and appeals to the Industrial Federation to call off the strike on the basis of the terms offered by the Chamber of Mines.

The statement asks the mine owners to restart the mines and promises police protection to the men resuming work.

The Chamber of Mines, responding to the appeal announced that the mines are to reopen on February 13, but the President of the Industrial Federation instructed the miners not to return pending the decision of the Executive.

An open-air meeting clamorously turned down General Smuts' proposals. A Dutch speaker, Mr. Boksuburg, hinted that the Nationalists would assist the Laborites if the latter joined a coalition to overthrow General Smuts' Government.

Freckled Pink Shoulders Win Verdict For Girl

MISS Grace Naughton owned a pair of freckled, pink shoulders, and a beauty doctor said she could remove the freckles and tried to. The beauty doctor failed, so Miss Naughton brought suit in the Small Claims' Court of San Francisco for the recovery of the amount she paid, alleging the freckles were still there. The Judge took a peep at the uncovered shoulders of the fair damsel and marked them "Exhibits A and B" and gave a verdict in favor of the plaintiff. The exhibits are modestly shown here, but a nifty fur cloak prevents a too-curious gaze.

CALIFORNIA MAN NAMED FOR POST OF U. S. ATTORNEY

L. G. Husar, Deputy Prosecutor Of Los Angeles Chosen To Succeed Major Holcomb

(Special China Press Service)

Washington, Feb. 12.—President Harding today nominated Mr. Leonard G. Husar of California as United States District Attorney for the United States Court in China at Shanghai.

Mr. Husar is Chief Trial Deputy in the City Prosecutor's office of Los Angeles and has practiced in the California courts for the past seven years.

According to Mr. R. S. Haskell of Rodger and Haskell, who studied at the University of Southern California with the prospective new United States Attorney, Mr. Husar studied for three years at Leland Stanford University at Palo Alto, Cal., and took his degree in law at the University of Southern California. Later he studied in Dresden, Germany.

Mr. Husar is a prominent Republican and at the present time is a member of the Los Angeles County Central Committee. He is a Mason and a Shriner, and an all-round athlete. Except for time spent in the army when he enlisted as a buck private he has practiced in Los Angeles since his graduation from college.

United States District Attorney Chauncey P. Holcomb, whom Mr. Husar will succeed, if his nomiuation is approved by the Senate, forwarded his resignation to Washington many months ago. Major Holcomb will continue practising law here as a member of the firm of Fessenden and Holcomb.

Mails For America Going Out Tomorrow

Mail for America is to be dispatched by the American Post Office tomorrow on the steamer Tenyo Maru of the T.K.K. which sails for San Francisco by way of Japanese ports and Honolulu. As the Tenyo Maru was delayed in leaving Hongkong the vessel will not arrive here until midnight and the tender from the ship with incoming passengers and mails is not expected to arrive at the Customs Jetty until about 9 o'clock tomorrow morning. The tender with outgoing passengers will leave the jetty at 3 o'clock tomorrow afternoon.

First German Ship Reaches Hongkong

(Reuter's Pacific Service)

Hongkong, Feb. 12.—The German steamer Havelland arrived this morning. She is the first German vessel to arrive since the War.

SHIP STRIKE AT H'KONG BELIEVED TO BE BREAKING

Two Passenger Liners, China And Monteagle, Sailing

USE NINGPO MEN

Workers Recruited Here By Detective Agency Are Sent South

Announcement of the early sailing from Hongkong of the steamers China of the China Mail and the Monteagle of the Canadian Pacific Services carries the indication that the Crown Colony's labor controversy which has halted nearly all shipping for more than a month may be working toward a conclusion, although an immense fleet of coasters and river boats still remains inactive at Hongkong.

The China is due to arrive in Shanghai on Friday and sail the same day for San Francisco by way of Japanese ports and Honolulu. The steamer is nearly a month behind schedule due to the strike, as it should have sailed from Shanghai on January 19.

MONTEAGLE SAILS

The Monteagle is getting away from Hongkong today and is due off Woosung Friday night. The steamer will sail for Vancouver, B.C. on Saturday. The vessel was due to sail from Shanghai on January 21.

Besides the Monteagle, the company's liner Empress of Japan which has been undergoing its annual overhaul at Hongkong is to sail from that port shortly and it is not believed here that any serious delay will be occasioned in getting the vessel away from the zone of strike trouble.

Both the China and the Monteagle are being moved by workers supplied from Shanghai —Ningpo men who were recruited here and sent south on special steamers.

MEN RECRUITED HERE

The work of recruiting seamen for Hongkong is being carried on by the Oriental Detective Agency and by reason of this agency's efforts 380 Ningpo men, sent south to man the Monteagle on the steamer Ichang, have now arrived in Hongkong.

When the Ichang sailed from Shanghai on Friday it took also a contingent of 150 men for the China Mail and these and other workers to be sent will be used on the China, the Nile and the Nanking, all China Mail boats that are now in Hongkong.

The Oriental Secret Service Bureau exercised the greatest secrecy and expediency in collecting and despatching the men. They were held in barracks and a rendezvous was established at a certain point where all the seamen were collected and transported under Indian guards in large motor lorries just before the Ichang was sailing and immediately placed on board. The Ichang left the French Bund on Friday at 1 p.m.

The Agency has already recruited besides the number despatched on Friday last three more crews for large liners comprising some 400 men and thousand cargo coolies and these will be sent to Hongkong within the next forty-eight hours.

MAY NEED MORE MEN

If the strike is not settled by the time the Empress of Russia is scheduled to leave Hongkong,

Who Said A Mild Winter? Ask Deepsea Fishermen

WINTRY blasts blow, shrill and keen across the North Atlantic these days, as this snapshot of an ice-coated trawler just in from the shivering expanse off Newfoundland shows. The fisher folk who ply that section of the ocean don't take much stock in these predictions of a mild Winter. They know different.

Bolshevists Fare Badly In Siberia, Say Partisans

Vladivostok Government Issues Communique Giving Details Of Numerous Victories Against Reds—Many Guns And Much Material Captured

(Reuter's Pacific Service)

Peking, Feb. 9.—The following account of the "White" rising in the Maritime Province is a translation from a recent issue of the official gazette of the Vladivostok Government.

The rising of the "Whites" commenced at Suchan.

On November 7 the liberation of Suchan from the "Reds" was begun by the capture of Vaidimiro-Alexandrovsk. A detachment of 200 White Partisans suddenly attacked the village of Mikhailovka and took it from the Reds. Thereafter, on November 7 and 8, with the aid of reinforcements, they cleared of Reds the whole of the valley of the river Suchan. In these two days the Whites captured two machine-guns and a number of rifles.

About the same time another group of White Partisans occupied Olga by a night attack. The garrison, consisting of regular Soviet troops including several Korean communist detachments, made a strong resistance but were soon compelled to withdraw. A great number of rifles, several machine-guns and a 47 mm. gun fell into the hands of the Whites. The Reds lost about 100 killed in this attack.

On Nov. 19 White detachments arrived unexpectedly at the village of Novizkaya (Suchan district) where they were joined by a large number of the local Peasants.

POPULATION JOINS WHITES

After a rapid advance, the Partisans at 11 a.m. of the same day occupied the villages of Nicolaevka and Frolovka, where they were joined by a considerable part of the local population.

Alarmed by these activities, the Reds with 600 men and machine-guns tried to take Frolovka, but were driven back by the Whites and retreated to the village of Sergeievka. Early in the morning of November 20 a White detachment, supported by the local population, occupied Sergeievka. The Reds made a counter-offensive two versts north of Sergeievka, but this effort was quickly crushed and the Reds retreated towards Anuchino.

A Red Korean battalion which had taken part in the fight and was withdrawing in the direction of Molchanovka was outflanked and pushed towards the river Eldagou.

The Habarovsk command, becoming alarmed by the development of the White movement, decided to mass strong forces in the region of Anuchino, and for this purpose at the end of November transferred several battalions with artillery and machine-guns to Anuchino.

These measures, however, proved unsuccessful. The peasants at Anuchino, observing the success of the White movement, joined the Whites in large numbers. They drove back the Reds, and on November 24 the last Bolshevik post on the territory under the Priamur Government, namely at Anuchino fell.

BOLSHEVIKS DEFEATED

The defeat of the Bolsheviks at Anuchino was complete, the Whites taking four guns, ten machine-guns and about two thousand rifles, thereafter the Whites captured Rudakovka, Cordelevka and other villages in the neighborhood, and finally on November 26 in the region of Murievka (sixty versts northeast of Anuchino) seized the supply base of the Reds, driving the Reds out of the Anuchino district.

The success of the Whites had a great influence on the attitude of the village population. Large numbers of volunteers joined their ranks, and the rifles captured from the Reds made it possible to arm the volunteers.

The struggle then passed on to the territory of the Chita Government.

The success of the Whites forced the Red command to commence preparations for the evacuation of the administrative and military institutions from Habarovsk, but events followed with such rapidity that the scheduled plan of retreat, as was afterwards ascertained, could not be carried out.

On December 1 information was received in Vladivostok that the insurrection movement was spreading to the Iman region.

The population at Iman rose against the Reds, the inhabitants of several villages in the neighborhood taking the initiative. The peasants of Rakitnoye and Kotelnikovo joined the White detachments operating in that district, and absolutely wiped out the Red force sent against them.

REDS FAIL TO MOBILISE

The mobilisation of the local population which the Reds tried to accomplish by making it compulsory for each settlement to furnish a definite number of men was unsuccessful. Neither threats for punishment had any effect and the peasants continued to arrive in groups at the camps of the Whites.

Hussuri station was occupied.

On December 2 the representative of the Priamur Government in the Spassky region moved to Ussuri station, and finally on December 4 the Partisans took Iman. Later the station of Bikin was occupied with the support of a Red detachment which had come over to the side of the Whites.

About this time the White movement in the Maritime Province began to acquire a broader and more organised character.

The almost simultanous fall of Iman and Bikin, situated more than 100 versts to the North, bore witness to the fact that the whole of the population of the maritime region under the Chita Government was yearning for release.

From every side reports began to come in that the peasants had organised themselves into detachments and were "liquidating" the remnants of the Red battalions.

In the region of Vladimiro-Alexandrovsk the village popula-

BRITAIN TO SEND LARGE FORCE TO AID ULSTERMEN

Government Responds To Sir James Craig's Appeal

OUTLOOK SERIOUS

Sinn Feiners Say Northerners Started Trouble

London, Feb. 13.—The situation on the Ulster frontier is regarded with much apprehension. In response to an appeal by Sir James Craig, the British Government has stated that large additional forces will be available for Ulster.

(Reuter's Service)

London, Feb. 12.—The bitter feeling between the North and South of Ireland, arising from the kidnappings earlier in the week, has been intensified by a terrible affair at Monaghan yesterday. Twenty Northern special constables were waiting to catch a train at Clones, when a party of the Irish Republican Army appeared, and fired on them with rifles and a machine-gun, killing four, and wounding and taking prisoners the others.

(Reuter's Service)

London, Feb. 12.—Contradictory accounts are given of the Monaghan affair, the Sinn Feiners alleging that the firing was caused through one of the special constables first shooting dead their commandant, Mr. Fritzpatrick, on his demanding the constables to put up their hands. An official Belfast account however asserts that the commandant was only shot after the Sinn Feiners had fired their first volley. It appears that eleven constables were wounded, two critically. The constables who were taken prisoners were subsequntly released.

The Ulster Premier, Sir James Craig, has telegraphed to the British Government suggesting that troops should be sent to the southern side of the border on the ground that it is responsible for the maintenance of law and order.

(China Press Service)

London, Feb. 11.—The British government has telegraphed the provisional government in Ireland asking it to obtain the release of all prisoners taken across the border from Ulster.

BRITAIN FAVORS IRISH ENVOYS TO U.S. GOVERNMENT

"Must Be Linked Up With Ambassador From London"

(Trans-Pacific—Public Ledger Exclusive To The China Press)

New York, Feb. 12.—David Lawrence, cabling from London to the New York World, says that Britain looks favorably upon the proposed interchange of diplomatic representatives between Ireland and America, asking only that the Irish dominion envoys be linked up with the Ambassador from London as a sort of senior representative and one working, if necessary, to bring about a united voice regarding British affairs.

Regarding the kidnapping forays into Ulster of Sinn Feiners, Mr. Michael Collins has made a statement that the extreme Republicans are responsible for the outrages hoping thereby to embarass the provisional government in its present negotiations.

Mr. Collins is anxious lest the kidnappings should strengthen the wish of the English conservatives to adopt the view of Sir James Craig as to the boundary terms demanded by Ulster. If Lloyd George insists on railroading through the boundary clause in the treaty, or should the government be defeated on this measure, then Collins and Griffith will be forced into the position of Redmond, they assert, thus leaving De Valera and the extremists in power.

For this reason, it is pointed out, forcing the issue of boundaries now may involve the whole future of Ireland.

BANKERS EXPLAIN NEW BOND ISSUE TO CHINESE PRESS

None Of Money To Be Used For Administrative Purposes

(Reuter's Pacific Service)

Peking, Feb. 8.—The Peking Chinese Bankers' Association gave a reception to the Chinese Press this afternoon. Mr. Chang Kia-ao, Governor of the Bank of China, presided.

It was explained to the guests that the object of the gathering was that misunderstandings on the part of the public with regard to the proposed bond issue should be removed. It was proposed to pay off all the foreign obligations on the salt surplus in full and to enter into an arrangement whereby the Chinese obligations would be fully provided for though not paid in full. The foreign obligations amounted to $70,000,000 and the short term loans to $40,000,000. By the arrangement mentioned the issue of bonds to the value of $96,000,000 would leave a balance of only $1,600,000, but none of the proceeds of the bonds would be used for administrative purposes. The Shanghai Mint loan would be included in the service of the proceeds of the loan.

The agreement had been made between the Ministry of Finance and the Chinese Banking Group. The bonds would be called the "Eight percent Bonds for the redemption of foreign and Chinese Short-term Loans." The amount was $96,000,000. The bonds would be redeemed in the course of seven years by annual drawings beginning at the end of the first year.

From the second year onward there would be two drawings annually. The rate of interest was eight percent payable half-yearly, and the security was the surplus salt revenue. After the Customs revenue had been increased to an effective five percent that additional revenue would be additional security for the payment of interest and the repayment of capital.

The issue of the bonds would begin one month after the agreement was signed. The Chinese Banking Group undertook to return to the Ministry of Finance all the Government securities they held on receipt of the bonds.

No further obligations would be undertaken on the salt surplus until the bonds were fully redeemed, in accordance with the Presidential Order dealing with that subject.

WANT COMMISSION

(Reuter's Pacific Service)

Peking, Feb. 9.—It is reported semi-officially that the Chinese Banking Group to which the issue of the $96,000,000 worth of treasury bonds has been entrusted has resolved to insist upon the formation of a Special Commission to carry out the liquidation of all the short term loans hitherto contracted by the Government. The Group will also request the Government to publish the agreement in full.

Peking, Feb. 9.—Mr. Chang Hu interviewed the President yesterday afternoon. It is reported that he agreed to resume the duties of Minister of Finance on condition that the proposed bond issue was carried out.

that in February 23, more Ningpo men will be recruited here and sent to the southern port.

Just what the strikebreakers are going to get in the matter of wages is not known definitely, but it is stated in shipping circles that the scale corresponds to that granted by the Blue Funnel Line.

The Blue Funnel Line have been in the past paying their seamen a little more than the other shipping companies. The increase roughly amounts to some 20 to 25 percent.

The China Mail Company are not worrying at present about the Nanking, as the company expects that the strike will be settled by the time she is expected to leave Hongkong, namely, February 17. In case the deadlock is not lifted, Ningpo men will be despatched from Shanghai to man that vessel.

The movements of the Nile, another of the China Mail boats tied up in Hongkong are not known by the local office. Instructions to recruit for her and the Nanking are awaited.

Advices received by the Admiral Line from Manila state that the Keystone State has collected a complement of Filipino seamen for the Silver State, which is expected to arrive in Shanghai from Seattle and Yokohama on February 21 and in Hongkong on February 24. The crew will be delivered by the Keystone State in Hongkong.

tion under the leadership of exnoncommissioned officers organised armed detachments to oppose the remnants of the defeated Reds wandering about in the district. The mobilised Red troops began to come in, singly and in groups, from the forests and hills and surrendered to the Government Militia.

OCCUPY HOR AFTER BATTLE

In the regions cleared of the Bolsheviks, life began to assume its normal course. The miners at Suchan commenced work.

On December 15 Kotikovo was taken by the Whites, also the station Viazemskaya. Many wounded, several machine-guns and supplies were captured at the latter place.

On December 18, after a great battle, the Whites occupied the station at Hor, forced the Reds by a series of attacks from their positions and took the station of Verino 45 versts from Habarovsk. During these battles three echelons, with a large quantity of railway, telegraph and telephone material were seized. This equipment had been dismantled by the Reds during their retreat, with the intention of removing it to Habarovsk.

On December 21 the Whites took the station of Korfovskaya, and on the 22nd, at six p.m. they occupied Habarovsk. The attack on Habarovsk was made from the front and west by flanking columns which, after defeating the Reds at Vladimirovka, where the Reds lost many wounded and two guns in good condition, made a rapid advance on the village of Pokrovka and cut off the retreat of the Reds to the West.

Two hundred prisoners, fourteen guns, several machine-guns and many trainloads of military supplies were seized at Pokrovka.

The first reports received from Habarovsk state that the Red detachments, Commissars, Communists and persons connected with the Reds fled in two directions, partly towards Blagovoschensk and partly to the hills in Chinese territory.

HOSPITALS DESTROYED

When the Reds left Habarovsk at midday on December 22 the station at Habarovsk was set on fire by order of the Red Command, the railway, church and hospital were blown up and several buildings adjacent to the railway station were burned down.

On the railway three locomotives were found blown up and about a hundred carloads of military and Government property were burned.

The railway line was being urgently repaired.

On December 4 Iman was freed from the Bolsheviks and on the 5th, regular railway communication with Iman was restored.

Thanks to the artillery captured from the Reds the White detachments were considerably strengthened in the fight at Novokrasnoyarsk. Five guns were taken by the Whites and on December 8 information was received in Vladivostok that the insurrection movement was spreading to the Habarovsk region. On December 13 the main force of the Whites was about 100 versts from Habarovsk.

The Reds in their retreat along the railway destroyed the bridges and railway buildings. A thirty sajene bridge, across the river Bikin, was blown up and the Reds carried out wholesale robberies on the local population. All supplies were taken from the villages and the population was theatened with starvation.

Separate groups of the Reds, which had been unable to reach the railway line and join the main force, retreated in panic from one village to another, seizing horses by force and leaving behind many wounded and frostbitten people. Their small detachments were destroyed by the infuriated populations.

SUN LAYS DOWN HARD TERMS AS PRICE OF PEACE

Peking Government Must Go And Himself Made President

(Chung Mei News Agency)

Peking, Feb. 9.—Negotiations between the Canton Government and the two northern leaders, Wu Pei-fu and Chang Tso-lin, have been going on, and each has been bidding for the support of Dr. Sun Yat-sen and the southern party. Reliable information, however, states that Dr. Sun's terms to each of the two parties have not only been identical, but have been of such a nature as to preclude all probability of their being accepted at the moment. Dr. Sun has demanded, first, that whichever party allies itself to the South must pledge itself to help the South overthrow the Peking Government; and second, that in the new Government, Dr. Sun Yat-sen be made the President.

Neither of the northern leaders seems to be showing much enthusiasm in taking up an alliance that includes such provisions as these, both, perhaps, because they do not feel ready to fight at the moment and prefer to accept some sort of a compromise. The conference in Mukden, attended by the main Chang Tso-lin generals, has apparently taken no other steps than to consider proposals that have been made by Wu Pei-fu, and General Wu's emmissary is reported to be at the conference. Wu, himself, is afraid to take any steps that might bring on a fight because his popularity in Central China is not great.

Peking Gets Details Of Sun's Expedition

Details of the military expedition of Dr. Sun Yat-sen have reached Peking in a lengthy telegram filed by Chen Kwan-yuen, tuchun of Kiangsi. According to the message, which was under date of February 10, mobilisation orders were issued by Dr. Sun as Generalissimo of the South army on February 7 at Kweilin, Kwangsi, where the expedition started.

The objective of the expedition will be Wuchang and Hankow. The two main columns are under the command of General Li Lieh-chun and General Hsu Chung-chi, the veteran soldiers who have practically fought in every internal combat. The expedition consists of three brigades of Yunnan troops under Brigadier-General Chu Bei-teh, one brigade of Kweichow troops under General Kuo Chen-lun, two brigades of Kiangsi troops under Li Lieh-chun and three brigades under Hsu Chung-chi.

The forces under Li are marching northward through Yungchow, Hunan, while those under Hsu are penetrating Kiangsi territory.

NOTED PAINTER CELEBRATES HER 70TH BIRTHDAY

Madame Wu Hsing-fen Hostess At Colorful And Charming Affair At Home

Madame Wu Hsing-fen, the distinguished artist, celebrated yesterday her 70th birthday at her home, 136 Rue des Peres. To commemorate the occasion Madame Wu's son and daughter-in-law, Mr. and Mrs. T'ang Chi-sheng, prepared an elaborate celebration to which a large number of Chinese and foreign guests were invited, among them a number of American ladies, who were entertained at a special birthday tiffin.

Madame Wu's residence was gorgeously decorated in festival colors and bands of musicians were in attendance. A large number of presentation scrolls testifying to the high esteem in which this famous painter is held were hung about the reception room where the ancestral offerings were set out on a table lighted with the great red candles. After being received by Madame Wu for tea served upstairs, the guests were served a delicious Chinese feast in a room on the first floor, where the walls were hung with paintings presented to Madame Wu by Chinese artists. Mr. Chen Kuo-chwang, author and art critic assisted by the Misses Woo and Dsing, entertained the guests.

Madame Wu is famous in artistic circles in China and her works are very much in demand. She received her professional training from her father, Mr. Wu Tsz-chia, an official of Anhui, and continued her work after her marriage to Mr. T'ang Kun-hua, also a patron of the arts. Her subjects include landscapes, flowers, religious figures, trees and birds—an unusual range for a Chinese artist.

The ladies present at the feast yesterday each received a scroll painted by Madame Wu and representing various birds and flowers. Among those present were Mrs. H. A. Wilbur, Mrs. Harrison King, Mrs. C. F. Rehnborg, Mrs. J. H. Gray, Mrs. J. J. Brenneman, Mrs. H. S. Dickerson, Mrs. C. G. Peeler, Mrs. W. F. Beaman, Mrs. G. C. Stockton, Mrs. W. W. Bartlett, Miss Geraldine Townsend, Miss Gertrude Oldroyd, Miss Lelia Tuttle, Miss Gretchen Fitkin and Miss Lucille Douglass.

AN ESSENTIAL FOR PROMOTION.

In the Saturday Evening Post of January 14th, J. R. Sprague deals with the question of why many young men are not promoted more rapidly in the organizations where they are employed.

He writes: "In preparing this article I talked with perhaps 75 business men, big and little . . . There was one point on which the verdict was unanimous: it is labor wasted to try to train any one for the managership of business who keeps himself habitually in debt, who shows he cannot finance his own affairs intelligently."

A savings is the first step in effective financial management of one's personal affairs.

BRITAIN WAITS FOR U.S. DECISION ON GENOA PARLEY

Reply On Postponement Proposal From France Delayed

(Trans-Pacific News Service Exclusive To The China Press)

London, Feb. 11.—England's answer to France's expressed desire to postpone the Genoa conference is being delayed until President Harding's expected announcement regarding it has been made. This was expected Friday.

If the American attitude is favorable to the Conference, England probably will enter enthusiastically into the conference plans irrespective of the date, but if unfavorable, Britain probably will agree to a postponement in the hope that the matter of the projected conference ultimately will be forgotten.

It is deemed possible that President Harding will leave the matter to Congress for decision, calling back a forgotten law which provides that the President must get the approval of Congress before entering into a parley of international scope. This may be "passing the buck" and on the other hand it may be an easy way to sidetrack the Genoa conference without hurting the feelings of those who have been the prime movers in this effort to reach decisions as to the most rapid manner in which the rehabilitation of Europe may be brought about.

(Special To The China Press)

London, Feb. 11.—Confirmation has come of earlier reports that France is urging the postponement of the Genoa conference for at least three months.

London, Feb. 11.—Search for a middle ground whereon Great Britain and France can stand anent the Genoa conference is proceeding in conversations between Whitehall and the French embassy.

The British are not ready to follow the advice of the extremists and tell the French to take or leave the Genoa conference, because they want to bring France to see the back water into which she is drifting by her own diplomacy.

Not only the Genoa conference, but the whole oriental policy of the French is concerned, for which reason the British will have to be patient.

The British desire is to first clear up all old accounts and start a new page in the relations with France, and therefore they are seeking some point in Poincare's diplomacy which can be accepted as common ground.

Poincare's insistence, that the whole complex Versailles treaty be held sacred is known to be the reason for divergence. While the British do not want to make a scrap of paper of the Versailles or other treaties, they also do not want to have the treaty act as a strait jacket.

They desire to take stock of the situation created in Europe by those treaties to see whether they are working acceptably and, if necessary to revise them in the light of present conditions. This, it is believed, inevitably means some sort of revision.

Manila Watches U.S. Ship Pool Plan

(Reuter's Pacific Service)

Manila, Jan. 25.—Cable dispatches from San Francisco telling of the plans of a group of San Francisco business men to form a shipping pool for the Oriental carrying trade have been followed with much interest in Manila. Many here believe that the plan of the combine to apply the American coastwise law to the Philippines will be revived and put into operation. The coastwise law, which would require all ships plying between America and the Islands to be under American registry, is strongly opposed by Filipinos and by foreign shipping lines. Its operation awaits a proclamation by the President, who is empowered to take such action after February 1 of this year.

When the coastwise law was passed more than a year ago Filipino politicians seized upon it as an occasion for agitation. Mr. Quezon, in particular, led the fight against it, asserting that it amounted to taxation without representation and in general was a reactionary and "imperialistic" measure.

If the law is put into effect by presidential proclamation this year, there is likely to be a loud chorus of protest from Filipinos here and from their resident commissioners in Washington.

A Judicious Inquiry

A well known traveling man who visits the drug trade, says he has often heard druggists ask a customer, who wished to buy a cough medicine, whether it was for a child or an adult and if for a child, they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it and for colds, croup and whooping cough it is unsurpassed.

Famine Victims Attack Factory

(China Press Correspondence)

Wusih, Kiangsu, Feb. 10.—An echo of the famine in Anhwei and the North has just taken place here. A crowd of famine refugees containing several hundred people—men, women and children—came through here two days ago.

They robbed country villages of rice as they went along. When they got near the city of Wusih they were going by a knitting factory. The leaders of the crowd went in and demanded money. A few dollars were given them and later the whole crowd came to the doors of the factory compound demanding more money.

When this was not given them they tried to force an entrance and it was all that the workmen in the factory could do to defend the place until the magistrate's guard and the police force of the city arrived and charged the crowd with weapons.

The ringleaders were taken into custody and examined and the matter ended for this county by enough money being furnished to take them over into the next county west of here.

Dyson Fined $10 In American Court

Mr. Verne Dyson, manager of the Trade Journal Publishing Company, was fined $10 by United States Commissioner Schuhl, on his plea of guilty to a technical assault on Mr. W. J. Davey, manager of the Shanghai Mercury. Mr. Schuhl announced his decision last night.

The case, which was heard on Saturday grew out of an argument Mr. Dyson and Mr. Davey engaged in the Mercury offices over accounts alleged to have been due Mr. Dyson and ended when Mr. Dyson is said to have struck Mr. Davey over the head with an umbrella.

U. S. Interests Buy Grain For Russia

(Chung Mei Service)

Peking, Feb. 9.—United States grain interests, supposed to be buying for New York or Pittsburg people have bought large quantities of wheat for shipment from ports under Japanese control in Siberia and Manchuria to the famine regions of Russia, according to advices received here from the United States; and in return for these shipments American interests are to receive "large commercial concessions" in Russia from the Soviet Government.

The quantities of this wheat are estimated at from 15,000,000 to 25,000,000 bushels.

TRIAL RUN MADE BY HYDRO-GLIDER IS BIG SUCCESS

Craft Built For Chekiang In France Does 210 Miles In Seven Hours

Quite a unique hydro-glider built in France to the order of the Chekiang government made a trial trip yesterday from Hangchow to Wenhoppo, a distance of 210 miles in seven hours. This is record time considering that steamers and junks do the same distance in seven days.

Owing to the low tide, the rapids and the shallowness of the river in these parts boats cannot travel fast.

The glider was delivered to the Chekiang government by Messrs. Chappeau Freres, and is designed to carry 12 passengers, and is of the Dumont Galvin type.

Her size is 30 feet in length and 10 feet in width. A hundred-horse power engine works the glider, the built is similar to the motor boat with a fly machine air propellor.

U. S. Marines Rank Failures—As Dads

(Chung Mei Service)

Washington, Jan. 13.—The figures for the 1920 United States Census, as little by little they are completed for publication, are providing daily statistical tidbits for the newspapers. The latest and one of the most amusing, is a schedule of families according to occupation. Overseers and mine foremen head the list of American fathers, with an average of 4.6 children. The marines bring up the rear, with only .16 per man.

Newspaper men beat the marines, but cannot touch the overseers; they rate one in the parental averages. As a general thing men who work hard have the largest families. Farmers, blacksmiths and clergymen run to over three children apiece. So do paperhangers, dog catchers and bootblacks. Rink keepers and linotype operators average about two and one-half children each.

Talleymen Accused Of Big Cloth Theft

The case in which four checkers and tallyman employed by Holt's Wharf and by Bradley and Company are charged with theft of five cases of woollen worsteds valued at Tls. 6,500 was remanded for a special hearing by Assessor Hutchison and Magistrate Li in the Mixed Court yesterday. Mr. Lipson Ward appeared to prosecute and introduced statements alleged to have been made by three of the accused in which confession of the theft is made and the reason given that the signatories needed the money to meet China New Year debts. The goods, it is said, were sold for $2,600 and the money divided in a Foochow Road teashop.

Mr. L. K. Kentwell and Mr. R. S. Haskell, appearing with Mr. P. M. Linebarger and Dr. Fischer, for the defendants, protested to introduction of the statements on the ground that the men had not been warned by the police that they would be used against them.

It is claimed that the defendants secured the goods, consigned to Bradley and Co., by arranging so that no record of their

California Will Have Novel Exhibit

(Chung Mei Service)

San Francisco, Jan. 12.—Representatives of every county in California, at a meeting held recently, voted to establish an exhibit of the state, costing $500,000 and covering the full 600-foot length of the nave of the Ferry Building in San Francisco. The exhibit will be a reproduction of California, in bas-relief, as it appears on the map with every mountain range, mountain, valley, plain, river, desert, city and town, at exactly proportioned miniature of the real state.

The background will consist of a large oil painting, 600 feet long and 100 feet high, and in the foreground will be a dioramic display of the lower portions of the state running into the background of high mountain ranges, which make up the eastern border of the state.

PAPER SUPPRESSED

(Reuter's Pacific Service)

Peking, Feb. 10.—The New Society, a paper founded by General Chin Yun-peng whose sympathies have lain with the Chihli party, was suppressed this morning by order of the police authorites. This action was taken on the ground that the paper in question was by alarmist reports fostering a breach of the peace.

NOTICE

THE General Public is hereby notified that supplies of "IXL" IODISED THROAT TABLETS, the remarkable new throat remedy that is now being so largely and successfully prescribed by physicians in Great Britain, are now being made available for residents in China.

Representing the latest advance in scientific throat medication, these tablets, by reason of their Iodine content, are indubitably superior to any other pastilles or tablets that have yet been evolved by scientific research.

Their use is positively indicated in all cases of Sore and Ulcerated Throat, Hoarseness, Quinsy, Throat Catarrh, Tonsilitis, Laryngitis, etc.

As a highly efficient throat disinfectant when epidemics are rife, IODISED THROAT TABLETS undoubtedly excel any other preparation yet put upon the market.

No malignant Diptheria, Influenza, or other germ can find lodgement on a membranous surface that has been subjected to the peculiar antiseptic influences of these tablets.

Pleasant to the palate, and allaying all irritation, each tablet, as it slowly dissolves in the mouth, releases, in harmonious combination with other fine quality medicaments, a specific quantity of the pure Tincture of Iodine, to soothe, heal, and sterilize the inflamed area.

WARNING:—All cartons of the genuine and original IODISED THROAT TABLETS bear the "IXL" trade-mark, and each tablet is embossed with the letter "A." Reject feeble substitutes.

All first-class chemists supply "IXL" IODISED THROAT TABLETS, but outport residents meeting with any difficulty in obtaining them are invited to communicate direct to the Distributing Agent, at 9A Kiangse Road, Shanghai.

FRENCH CONSUL PRESENTS MEDAL TO H. G. SIMMS

In the presence of a large number of officials and members of the Allied communities French Consul-General H. A. Wilden yesterday presented the medal of the "Reconnaissance Francaise" to Mr. H. G. Simms, chairman of the Shanghai Club during the years 1914 to 1919, in recognition of the aid given the French and Allied cause during the great war. The ceremony took place in the main hall of the Club, which was appropriately decorated with the French and British flags for the occasion.

Mr. Wilden was introduced by Mr. E. W. Noel, in the absence of the chairman and vice-chairman of the Club. The French Consul-General was warmly applauded when he rose to speak. The part which the Club had played during the war could not be overrated, he declared. It had been shown that the British institution had put into practice that quality essentially British—hospitality. The club had been a center for the allied citizens, who found hope and comfort there. The club had set a wonderful example of union and friendship between the allies and it had been truly said that the man responsible for it was their friend Mr. Simms, who knew his task as chairman and fulfilled it in the highest way, sparing neither time nor trouble and winning thereby the esteem and respect of all and particularly of the French community in Shanghai.

Mr. Wilden went on to speak of Anglo-French friendship, which he termed one of the foundations for peace. Disunion, he declared, meant certain and immediate disorder, so much so that if he thought it were likely to come he would at once turn Bolshevik. Their national friendship must be preserved even at the cost of sacrifice and concessions by both sides. He spoke in humorous vein of the propaganda now being pushed forward and said that they must fight it.

The medal which he had the honor to present, Mr. Wilden said in conclusion, was a small token of French gratitude, but it was the greatest symbol he knew of. Mr. Simms had earned the gratitude not only of a small section of the French community here, nor of the French government, but of the whole nation. In making the presentation he would ask Mr. Simms to believe that it was an acknowledgment of the work which he had done during the war and that he, the Consul-General, was simply the spokesman for France.

"In acknowledging the honor which you have just conferred on me in the name of the French Government in my capacity of late Chairman of the Shanghai Club, I feel and we all feel highly gratified that the services which it was possible to render France in this distant land should be found worthy of official recognition," said Mr. Simms in reply.

"In helping to bring about and maintain an atmosphere of comradeship and good feeling between the French and British communities in Shanghai through the critical period of the Great War I feel sure my colleagues on the Committee and the members of the club will bear me out when I say that we were met more than half way by the unfailing cordiality and good-will of the French members of this club, and especially by the charming personality of our esteemed fellow member, Monsieur Wilden.

"I trust the bond of friendship which exists between our two countries will always continue to make itself manifest in this club through the friendly intercourse of the French and British members as in the days when we had a common enemy. I feel that friendly discussion is the surest way to avoid misconceptions and misunderstandings arising out of post bellum problems.

"I feel highly honored in accepting this Medaille de Reconnaissance Francaise from your hands, and I would ask you to convey to the proper quarter my appreciation and thanks for the honor done to me and through me to my fellow members of the Shanghai Club."

Fire in the congested district off North Soochow Road gave Central Division of the Brigade a stiff fight early yesterday morning. The outbreak occurred at 272 North Soochow Road in one of a terrace of small houses used as a fat refinery and the flames spread rapidly along under the roofs of the rest of the terrace. Efficient work checked the advance, however, and the damage was restricted to the roofs and first floors of the block of buildings.

WOOD ASKS BOND ISSUE TOTALING 75,000,000 PESOS

Governor-General Would Borrow 45,000,000 From America

(Reuter's Pacific Service)

Manila, Jan. 25.—A total bond issue of 75,000,000 pesos is recommended to the Philippine legislature by Governor-General Wood in order to rehabilitate Philippine finances. Of this amount, according to the Governor's plan, 45,000,000 would be borrowed direct from the United States treasury, without further security than the Philippines Government's promise to pay. This part of General Wood's recommendations has been approved by the Senate.

Some Senators have objected to the proposal on the ground that it would unduly increase the American hold on the islands, and prove another obstacle to the much cherished "independencia" program.

Speaker Osmena, who since the resignation of Mr. Manuel Quezon as president of the Senate, is the virtual "boss" in island politics, is believed to favor the Wood plan, however. Indications are that nearly all of General Wood's proposals will be rushed through the legislature at the end of the session. This, it is pointed out, will eliminate much debate and block attempts to reconsider.

BOWSIDE DEFEAT Y.M.C.A. 30-26; STROKESIDE BEATS FEARON DANIEL CO., 56-14

Schoolboy Volunteers On "Y" Team Hold Club Men To Close Score

Rowing club teams won in the League basketball matches last night, the Bowside in the first match over the Y.M.C.A. 30-26, and the Strokeside in the second half of the doubleheader, over Fearon Daniels, 56-14. Both games were played on the club floor.

The "Y" team which opposed the Bowside was composed solidly of American School boys who volunteered to fill out the disbanded "Y" outfit, and are carrying out its schedule. The boys played well, particularly Shipley, Smith and Hager, but the Club men had the advantage in all round work.

The Strokeside had a lineup a trifle different from recent games. Neprud moved back to center, the two Nash boys did the guarding while Coulcher and Johnson handled the forward work. Goldman was absent.

The summaries follow:

Bowside 30,		Y.M.C.A. 26
Heinzerling	LF	C. Squires
Bell	RF	Shipley
Hale	C	Smith
Gattrell	LG	Hager
Campbell	RG	McGinnis

Substitutions—Day for Campbell. Goals from floor—Shipley 6, Heinzerling 5, Hager 4, Bell 4, Hale 3, Gatterell 3, Smith 2, Squires 1. Referee—Mr. Nelson.

The second game was played late, Fearon Daniels it was thought would forfeit through inability to raise a team. They were filled out however, after the scorers had left so no details of the play were recorded.

BIG LEAGUERS TO TOUR JAPAN IN COMING AUTUMN

Manila, Feb. 3.—Herbert H. Hunter, utility player for the St. Louis Cardinals, arrived in Manila yesterday morning on the Bay State from Japan where he has been coaching the Waseda University team during the winter season, on his way home to join the Cards in their spring training. Mr. Hunter stated that Japanese promoters had offered 60,000 yen for a first class major league ball team to visit Japan this fall and that he had accepted the proposition. He stated that he has named fifteen major leaguers for the Japanese promoters and that he is held to a contract to bring only players of recognised standing in one or the other major leagues.

Among the players mentioned by Hunter, are Frank Frisch, the "Fordham Flash," third baseman for the world's champions and F. C. Lane's choice for All-American third baseman, "Long" George Kelly, first baseman for the New York world's champions and leader of the National League in home run hitting during 1921, Arthur Nehf, of the world's champions and one of the best southpaws in big league baseball, Harry Heilmann, of the Detroit team, who led the American League batters in 1921, and Dave Bancroft, captain and shortstop of the world's champions.

He also is communicating with Frank Snyder and Earle Smith, catchers for the New York Giants, Bill Ryan, right-handed twirler for the same team, Charley Hollocher, shortstop for the Chicago Cubs, Ross Young, of the Giants, one of the greatest outfielders in the game, Herb Pennock, southpaw twirler of the Boston Red Sox, and Jesse Haines, pitcher for the St. Louis Cardinals.

1921 Greatest Swimming Year; 40 Records Fell

Weissmuller's Performances Were Outstanding Feature

From every point of view the year 1921 stands out as the greatest in the history of American swimming. Water sports enjoyed unprecedented popularity with contestants and public, more and better competitors were in the field than ever before and swimmers of both sexes made a holocaust of the world's, national, collegiate and scholastic records.

Nearly forty new standards were accepted officially by the A. A. U. and this fails to take count of performances actually rating as records, but at distances not listed and of a number of iconoclastic feats accomplished abroad by Miss Ethelda Bleibtrey, then of the New York Women's Swimming Association; Norman Ross, of the Illinois A. C., and Ludy Langer, of Honolulu.

A conspicuous feature of the year was the sudden rise to fame of an unknown youth of seventeen—John Weissmuller of the Illinois A. C. He sprang up almost overnight, and proceeded to amaze the world with sensational exploits. By Fall he had won championships, defeated national and Olympic title holders and wiped out half a dozen standards.

THE PREMIER SPRINTER

Two of his achievements—100 yards in 0:52 3-5 and 150 yards in 1:27 2-5—served to enthrone him as the greatest aquatic sprinter of all time.

Ross and Langer shared leading laurels in middle distance swimming. Each captured several championships and hung up a string of records at home or abroad. Ross's most brilliant feats were swims of 440 yards in 5:03 4-5 and one mile in 22:38 2-5; Langer's striking achievement was a 500 metre peddle in 6:48 2-5.

Warren Kealoha, of Honolulu, proved the king of back stroke swimmers. He lowered the international time for 100 yards to 1:06 2-5 in a pool and for 150 yards to 1:49 in open water. At the breast stroke, leadership was established by Robert Skelton, of the Illnois A. C., who won the national titles and brought down the American record for 440 yards to 6:37 4-5. However, Stephen Ruddy, of the New York A. C. defeated Skelton

Easier To Manage Chorus Girls Than Fighters, Says Flynn

Leo P. Flynn, who boasts of managing the largest troupe of fighters in the world, believes it is much easier to manage a flock of chorus girls than it is to look after a stable of boxers. Listen to what he has to say: 'Every time I hear the boss of a prima donna or the Simon Legree of a flock of chorus girls complaining about what a tough life he leads I get a laugh. Those fellows don't know what troubles are, because they never managed a gang of fist slingers. If a chorus girl gets flip or the songbirds get into fits of temperament all the manager has to do is to knock down a few of them, or toss them down the stairs, and that ends it. But can you figure out what would happen to me if I started to bounce my fists off the noses of some of the warriors under my care. It may be true that you can't reason with women, but you can argue with 'em, anyway. But you can't reason or argue with a fighter who has contracted a sudden grouch. They'll either walk out on you or walk in with a well-developed idea that they can knock you cuckoo with one punch.

Gunners Beat Customs, 14-Nil

By their record win over the Customs Company Sunday the Machine Gun Company won the right to compete with the Shanghai Scottish Company next Sunday in the finals for the S.V.C. Football Shield. The Machine Gunners overwhelmed the Customs squad completely, and the end of the play saw 14 goals for the Machine Gunners to nil for the Customs. The match was played on the S. F. C. ground at the Racecourse.

The play at the outset was much closer than the final score would indicate. The first three-quarters of an hour saw only three of the Machine Gunners' fourteen goals scored, and at half-time it stood 5 to 0. Five goals came in quick succession shortly after the resumption of play, and the Customs aggregation was totally unable to check the onrush. The fight continued right up to the last whistle, however, with the Customs' men keen to score at least one goal on their opponents. Every attempt, however, was in vain.

Goldman and Laurie-Smith were the particular stars of the contest. Mr. Clifford refereed.

ENGLAND BEATS IRELAND IN INTERNATIONAL RUGBY GAME BY SCORE OF 12 PTS. TO 3

Record Crowd Of Spectators Attended; England Was More Aggressive

(Reuter's Service)

London, Feb. 11.—In an international Rugby match at Dublin today, England beat Ireland by 12 points to 3.

The ground was in splendid condition and there was a record crowd of spectators. The English team attacked at the outset, the forwards invading the home twenty-five line where Crawford, the Irish full-back, saved magnificently.

After nine minutes play, Wallis scored a try for Ireland. A beautiful movement by the English three-quarters ended in Smallwood equalising.

Ireland pressed for a time and then the English backs made another well-sustained attack, as the result of which Low scored a try. The English backs continued to play finely, but they met with a very stout defense.

At half-time the score stood as follows:

England ..... 6 points
Ireland ..... 3 points

On the resumption of play, after a fine forward rush by the Irishmen, the English backs again took charge of the game. Smallwood, after a capital run, sending in to Maxwell-Hyslop, who scored.

Ireland then made a fresh spurt but was held up twice near the English line. Towards the end of the game, England persistently attacked and Gardner scored the fourth try.

Mrs. Leicester Wins Ladies' 'Unt Prize

FOREIGN SHIPS CARRY BULK OF AMERICAN TRADE

Figures Reveal Dominant Position Is Held By British Vessels

(Chung Mei Service)

Washington, Jan. 12.—The dominant position held by foreign vessels in American trade, especially in both exports and imports between Europe and the Gulf and Pacific ports, is outlined in a detailed summary by E. S. Gregg, chief of the transportation division of the Department of Commerce, which show that in the first ten months of 1921 they handled approximately seventy-five percent of the traffic.

In an analysis of the trade between the United States and the United Kingdom, the following statistics are given for the months:

With	American Ships	Foreign Ships
Atlantic ports	34%	66%
Gulf ports	19%	81%
Pacific ports	33%	67%

The percentage of foreign trade between the United Kingdom and the Atlantic Coast of the United States carried by American ships fluctuated between fifty-five percent in June and fifteen percent in October. A better showing was made by exports than by imports. In the traffic between the United Kingdom and the Gulf, the share of American ships reached its lowest point in October, eleven percent, as compared with thirty-one in July. Pacific Coast trade has fluctuated widely.

Figures on trade between the United States and Europe for ten months show:

With	American Ships	Foreign Ships
Atlantic ports	40%	60%
Gulf ports	32%	68%
Pacific ports	17%	83%

The proportion on this route tends to decline. Comparison for trade between the United States and the Mediterranean is:

With	American Ships	Foreign Ships
Atlantic ports	23%	77%
Gulf ports	13%	87%
Pacific ports	72%	28%

The trade between the Atlantic Coast and the Mediterranean constituted almost three-fourths of American commerce with that region. A tendency for the share carried by foreign shipping to increase is observable. The volume from the Pacific Coast is small and the large proportion in American steamers is not significant.

Railroad Strike Spreads In India

(Reuter's Service)

Bombay, Feb. 12.—The strike on the East Indian Railway affects the line from Allahabad northwards to Kalka, and westwards to Jubbulpore. Goods traffic has been suspended between these places but mail and express trains are still running. An effort is being made to maintain passenger services.

Troops are patrolling the line, while the trains carry armed guards. The political motives of the strike were shown by the fact that intimidation was practised by the strikers accompanied by cheers for Mr. Gandhi. Anglo-Indians and Europeans are manning all the posts deserted by the Indians.

The strike is spreading. Troops have been lent to deal with the movement of gross intimidation against willing workers. There have been unsuccessful attempts at sabotage.

Bombay, Feb. 12.—Mr. Gandhi has temporarily abandoned his policy of civil disobedience.

Politics Still Unsettled In P. I.

(Reuter's Pacific Service)

Manila, Jan. 25.—Philippine domestic politics continue in an unsettled condition, with Speaker Osmena firmly in control at present, but with rumors of a party split before the election next June. Mr. Quezon, who recently resigned as president of the Senate and announced his intention of going "back to the farm," has thus far resisted the temptation to devote himself to agriculture. He remains in the Senate, and it is persistently reported that he is holding frequent conferences with the Democrats or opposition leaders, probably with the object of forming a coalition with them.

Although it is believed unlikely that a new party would be able to defeat the Nacionalistas at the polls this year, indications point to the formation of a new group composed of radicals and young voters, many of them graduates of the public schools. These favor making English the universal language of the islands, extending the suffrage to woman, etc. Independence is, of course, another important plank in their platform.

SHIP IN TROUBLE

(Special To The China Press)

Highland Lights, Mass., Feb. 11.—The Furness line freighter Thistlemore is piled up on Cape Cod Beach and will probably be a total wreck. The seas are running high, and members of the crew are being brought ashore on life lines.

FARMER BLOC IN SENATE PASSES MARKETING BILL

Law Will Legalise Co-Operatur Selling In Interstate Trade

(Trans-Pacific News Service Exclusive To The China Press)

Washington, Feb. 11.—The agricultural bloc in the Senate has won a victory of far-reaching consequences in passing the co-operative marketing bill which legalises producers' associations for entering into interstate commerce. This bill previously was passed by the House, but the Senate delayed action because a bill with more restrictions was preferred.

The agriculturist senators were undaunted and augmented their ranks with such success that they now constitute a definite power with which other factions in the Senate must reckon.

Eight Are Executed As Plot Is Disclosed

(China Press Correspondence)

Kaying, February 4.—Eight soldiers were shot here last week in the presence of a great crowd of people. A plot had been laid to kill and rob a number of prominent citizens of this city in order to gain money for a proper celebration of The New Year. It is reported that had the scheme worked out the city would have fallen into the hands of a gang of bandits, and much loss of life and property might have resulted.

The news leaked out and the magistrate, who has been elected under the new Kwangtung system, promptly took steps to bring about the arrest and trial of the culprits. After fixing the guilt the execution promptly took place. Some months ago a band of armed robbers robbed two jewelry and silver shops and made good their escape and this execution. It is expected, will tend to discourage such attempts in future.

1921 Greatest Swimming Year; 40 Records Fell

(Continued from Page 5)

once at 220 yards in 3:00, a new national standard.

TWO GIRLS EXCEL

The foremost free style swimmers among women were Miss Bleibtrey and Miss Charlotte Boyle (now Mrs. Clune), of New York. Among their many record performances four stand out as the finest in the annuals of swimming for women, namely, Miss Bleibtrey's 100-yard marks of 1:03 2-5 in open water and 1:03 4-5 in a pool; Miss Boyle's 150 yards in 1:49 4-5 and 220 yards in 2:47 2-5, both in the Brighton pool.

Miss Sybil Bauer, of the Illinois A. C., topped the fair backstroke devotees, bettering the world's tank figures for 100 yards to 1:16, and for 150 yards to 2:06 1-5. In fancy diving Clarence Pinkston, of San Francisco, and Miss Helen Meany, of the New York W. S. A., winners of national titles, were declared by experts the greatest performers ever developed in their respective fields.

WIN WITH HIGH SCORES

In all-around A. A. U. squatics the men's team championship was captured by the Illinois A. C., and the women's by the New York W. S. A. Each ran up the highest scores in both the indoor and outdoor national title fests.

Notable features were the formation at Yale of the finest swimming team that ever wore college colors; the triumphal Australian tour of Miss Blibtrey, Langer and Fua-Kealoha, and the extraordinary work seen in the women's national long distance swimming championship.

The women's marathon classic saw twenty-four girls, the majority youngsters ten to fifteen years old, beat the record for the famous 3½ mile course, from Point Breeze to the Brighton Beach Baths, in New York Bay.

EDMOND ROWDEN DIES SUDDENLY IN HOTEL ROOM

Consulting Engineer For Dock Company Succumbs After Heart Attack

The funeral of Edmond Rowden, who was found dead in his room at the Palace Hotel at noon on Sunday, is to take place tomorrow afternoon at 5 o'clock at Bubbling Well cemetery.

Mr. Rowden, who was a consulting engineer for the Shanghai Dock and Engineering Company, was 52 years old at the time of his death, which was caused by heart failure. On Sunday morning he had his breakfast at the hotel at the usual hour. Later he complained that he was not feeling well and said he was going to his room. When an employe of the hotel entered the room about noon he found Mr. Rowden dead. An inquest was held yesterday when a verdict that the deceased had succumbed to heart failure was given.

Thousands Urge Votes In Japan

(Reuter's Pacific Service)

Tokio, Feb. 11.—Mass meetings supporting the demand for universal suffrage were held here and in other towns today. Tens of thousands attended the Tokio meeting and listened to fervid speeches by Mr. Ozaki and other orators.

Tonight a party of about 2,000 marched through the streets singing and later surrounded the house of Mr. Ogawa, a prominent Seiyukai leader, and broke the windows. They were dispersed by the police. A force of police guarded the Seiyukai Party's headquarters and also garrisoned Hibiya Park.

An opposition suffrage bill has been introduced in the Diet.

(Eastern News Agency)

Tokio, Feb. 11.—The universal suffrage Bill was introduced in the House of Representatives today conjointly by the Kenseikai, Kokuminto, Koshin Club, and Independent Parties. In the meantime, the Universal Suffrage Enforcing Society of the whole country, designating today as "suffrage day," distributed before noon some 500,000 pamphlets urging the enforcement of universal suffrage throughout the City of Tokio.

In the afternoon, the Society held a great open-door meeting in Shiba Park with five stands, at which thirty speakers, including distinguished Members of Parliament, journalists and representatives of public organisations, expressed their views, strongly urging the necessity of the bill.

According to telegrams from Osaka, Nagoya, Kofu, Sendai, and other principal cities, meetings were reported to have been held in connection with universal suffrage.

The Union of laborers, engaging in Government enterprises, today made a demonstrative procession to gain sympathy for the unemployed. The procession started from the Gokokuji Temple, proceeding to Asukayama, where representatives from various districts in Japan made speeches.

Mongolia To Have Laws Just As In Ghengis Khan's Day

Chita, (By Mail).—The Minister of Justice of the new Mongolian Revolutionary government has declared that Mongolia is now to have real justice and real laws administered in real courts for the first time since the mighty Ghengis Khan ruled at the now ruined city of Karakorum and made all Europe tremble before his power.

Since Ghenis Khan, the new Minister of Justice says, princes had taken the law into their own hands and administered it with great brutality. But now there is to be a new code and a new system organised by the independent authorities at Urga, who despise the Chinese limitations under which they have been laboring.

Aeros Revolutionise Map Makers' Work

Many Cities Now Use or Plan to Use Aircraft For Mapping In City Planning, Traffic Control, Waterfront Improvements, Transit Betterment, Street Widening And Fire Protection. Railroads also Adopting New Method In Mapping Lines.

BY CAPT. CLAUDE R. COLLINS

(Aeronautical Expert Of Universal Service)

Map-making engineers of the old school are out of date. The airplane is the new tool which is swiftly replacing improved ground instruments of George Washington's day. Now in a few hours an aerial photographer flying over a city can complete an accurate map which would require months of effort by a corps of engineers on terra firma.

The remarkable aerial mosaic maps of war sectors were quickly transferred to civilian channels following the armistice. Both in technique of map-making and in the equipment employed aerial surveying has made substantial progress.

Private enterprise, aided by governmental co-operation has taken the art from where the army left it and carried it to a point of remarkably efficient commercial practicability.

Many cities today are using or planning to use aircraft in map-making for a wide range of engineering studies such as city planning, traffic control, waterfront improvement, transit facilities, locating of new schools, street widening and fire protection. These are strictly municipal possibilities. In addition such aerial maps have been found efficient in investigation of watershed sites, hydro-electric developments, highway planning, railroad and canal locations, forest survey and forest fire patrol.

Few engineers have as yet sensed the great worth of the airplane in extensive projects, says a recent issue of the Engineering News Record. With such improvements as an automatic device to time exposure of film, allow for the proper overlap of each picture. Commensurate with the speed of the airplane, universal focus of aerial camera for "shooting" from various altitudes, automatic leveling of cameras and maintenance of direct forward flight the aerial maps now produced attain a high degree of accuracy and a wealth of technical information not obtainable in other ways.

Among the points of efficiency presented by the airplane are: The great speed with which such maps can be made: their ability to cover territory and detail of terrain not now obtainable on foot; exceptionally low cost and the impossibility of omitting any features in the area being covered.

Most large cities are greatly concerned with the ever growing problem of traffic control. In this field alone the airplane map has remarkable possibilities.

GAMBLERS FINED

Fines of $10 each were imposed by the Mixed Court yesterday upon 46 of the 60 gamblers rounded up in the servants' quarters of Mr. Frank Hadley's home at 3G Peking Road Saturday night. Fourteen failed to appear and forfeited bail of $20 each. Warrants have been issued for a cook and two other servants who are alleged to have been conducting the gambling.

WOMAN WILL TRY AGAIN FOR CONGRESS

Miss Alice Robertson Is Out For Re-election This Fall

Washington. — Old-fashioned conservatism will be pitted against ultra-feminism when Miss Alice M. Robertson of Oklahoma makes her race for re-election to the House of Representatives next fall. The only woman member of Congress today announced her candidacy for a second term.

Although the national woman's party and other similar organisations, which have championed "better baby" bills and amendments to the Constitution which would allow women to retain their maiden names after marriage, are opposed to Miss Robertson, she intends to meet their issues in the campaign.

"Do you intend running for Congress again, despite the opposition of the women?" Miss Robertson was asked.

"Surely. Doesn't a freshman after all the hazing and discipline of that class look forward with joyous anticipation to promotion?"

"What do you think of your prospects for another term?"

"I think I have a fighting chance, or I would not consider it at all."

"What will wour platform be?"

"I don't believe I could get a better one than I had before. I am a Christian, an American, a Republican. A Christian first, not in the sense of one bound by church or creed, but believing: 'Thou shalt love the Lord, thy God, with heart and soul and mind and strength and thy neighbor as thyself,' and making a constant guide the Lord's prayer, that never failing help to human souls; an American who believes that our country is and should continue the world exemplar of true liberty—liberty that is freedom—industrial, religious, social, political, giving to every American opportunity to pursue his own individuality of aspiration or achievement, so long as he does not interfere with the rights of his fellow citizens; a Republican because the principles of that party have always commended themselves to me. For the development and strengthening of American industries I believe in a protective tariff.

"The real need of America is an awakening of individual conscience, a turning from petty greed and selfishness, a willingness to think of our neighbor 'as of thyself.' Law cannot do this, certainly no party can, but so long as parties must serve the useful purpose of expressing the will and thought of the people, there must be party allegiance with the limits of personal conscience.

"I have liked the work in Congress far better then I had dreamed possible. From the day of my entrance among them, my colleagues have treated me with a cordial courtesy that is faultless. I have been made to feel that I was not 'a rat in a strange garret,' but an accepted co-worker.

"The press of the country has shown me kindness as appreciated as unhoped for, in accepting me as a woman of earnest purpose, coming to her new sphere of duty as a citizen, not as representing women especially, but all the people of my district.

"One of my personal friends, but political opponent recently said at a Democratic banquet in my home town that 'Alice in Wonderland' was speedily to be brought back to her former obscurity. It has been 'wonderland,' indeed—to be received so cordially by foremost Americans, to sit, as the first woman so honored, in the speaker's chair, to vote for peace.

Tolstoi Home Once Gambled Away Is Used As Firewood

Yasnaya Polyana, Russia, (By Mail).—The ancestral Tolstoi mansion, which Count Leo Tolstoi gambled away in his youth and which the winner took apart and transported to the village of Dolgoyoe, and set up anew, has been again torn down and burned for firewood.

It was a two-story mansion of the type classed in the United States as colonial. The very traces of the original site of the house, in the center of the Tolstoi park have long since disappeared, and today towering trees grow there.

Another house which Tolstoi frequented in the summer when he wished to escape the large number of visitors to his own home, that of M. Soukatin, on his estate at Kochety, was looted and partly destroyed by the peasants three years ago.

BERNHARDI LAYS GERMAN DEFEAT TO DEAD LEADER

Attacks Bethmann-Hollweg For Series of "Blunders" While Chancellor

CITES BELGIAN VIOLATION

"Big Mistake," He Asserts; Lauds Ludendorff and Hindenburg

Berlin, Dec. 31.—Gen. von Bernhardi's latest book, "Germany's Heroic Struggle, 1914 to 1918," is just off the press. In it he attempts to prove that guilt for starting the World War does not rest with Germany.

He claims "the basis for Germany's catastrophe was laid by Bethmann-Hollweg, a man of hesitating and deliberating nature, but not a man of action."

He lays all of Germany's political mistakes during the war to Bethmann-Hollweg. He accuses him of a superfluous declaration of war against Russia and France, and of giving Italy the desired pretext for remaining neutral.

"BLUNDERS" LISTED

The former chancellor's next big mistake, says Bernhardi, was admitting the violation of Belgian neutrality, which already had been violated by the other side.

The Chancellor is accused of having been unable to keep Italy out of the war, of having neglected to force the Rumanian decision at the proper moment, of having prevented a decisive battle against the entente Orient army, and of having dragged the Brest-Litovsk negotiations out to inconceivable length.

The book charges that the Chancellor created the Polish State which immediately betrayed Germany, and that he permitted Bolshevists to organise in Berlin.

The entire conduct of the Chancellor during the war is characterised as "incompetent and pendantic."

PRAISE FOR TWO

Bernhardi proceeds:

"It will ever remain to the imperishable prestige of Hindenburg and Ludendorff that they repeatedly endeavored to arouse Germany to the full knowledge of the perilous situation and to the disgrace of the Chancellor, who frustrated these efforts.

"The mass of the German people, therefore, felt that they had no real leader when the military collapse came. They naturally turned to the party promising all the blessings of peace, but which in reality only pursued its own self interest.

"The revolution came. Germany, believing in a peace of justice, consented to disarm, and now stands defenseless before a still implacable enemy."

The former Chancellor is dead.

News Brevities From The Chinese Press

Five hundred constables have been trained by General Tien Chung-yu, Tuchun of Shantung, to man the Kiaochow-Tsinan Railway as soon as the Japanese military police are withdrawn in accordance with the decision of the Washington Conference.

The Ministry of Finance in a note to the Cabinet and the Ministry of the Navy states that a monthly remittance of $500,000 will be paid the admiralty hereafter by the Ministry of Finance.

The butchers in Wusih went on strike Sunday after their request to the city authorities to reduce the new tax was rejected.

The Chinese government bureaus in Shanghai were closed for public business in observation of the National holiday on Sunday. On February 12, 1912, Dr. Sun Yat-sen relinquished his post as provisional President of the Chinese Republic in favor of Yuan Shih-kai, thus opening a new era for the unification of the country.

The French Minister to Peking will leave the capital next Sunday for Mukden to welcome General Joffre.

In a Nutshell

A person phoned our office recently and asked us for the address of a local employment agency. He had read the advertisement in the Classified Columns and planned to call on them the first time he needed their services. In the meantime the Agency had allowed their advertisement to expire so the connection would not have been accomplished had we not received the call.

That is where consistent advertising, even in a small way, pays.

Exchange Fluctuations
Asia Banking Corporation

February 13, 1922

Spot bar silver was up ¼d. and forward ⅛d. in London on Saturday. The New York price advanced to 65⅞ cents, and the London-New York cross rate is 433½.

The only changes in the official quotations here today were a drop in the Gold Dollar rate to 72 and a rise in the Franc rate to 850.

The market at the opening this morning was very firm, speculators being quite free sellers. Business in Sterling was done as high as 3-4⅜ for February, 3-4½ for March and 3-4¼ for April.

Gold Dollars were not quite so strong in proportion, the highest being done at 73¼ for February, 72⅝ for March and 72¼ for April.

Later in the morning speculators stopped selling and rates eased off and, in the afternoon, the best sellers of Sterling were offering only 3-4¼ for February, 3-4 for March and 3-3⅞ for April. The best sellers of Gold Dollars at that time were offering 72¾ for February, 72⅝ for March and 72 for April.

London report their silver market as being steady, with China and India buyers on any drop in the price. The New York market is nominal, with no demand.

LITTLE BODIES AND BIG PAINS.
TEETHING WITHOUT TEARS THROUGH BABY'S OWN TABLETS.

The misery and pain that many babies suffer through teething time is expressed eloquently enough in fits of pitiful crying, fever, refusal of food, and diarrhoea—or perhaps stipation. Baby's Own Tablets—guaranteed to contain no opiates and to be perfectly harmless—act like magic, relieve pain, comfort baby and give rest to the mother, while teething progresses without tears.

Baby's Own Tablets, the Canadian children's remedy, are safe and pleasant for the youngest infant and the growing child. Besides being so helpful during the teething period they remove constipation, allay feverishness, cure colic, indigestion and worms.

Obtainable from chemists, also at 60 cents the vial, post free from the Dr. Williams Medicine Co., 96 Szechuen Road, Shanghai.

Singapore Rubber Auction

Singapore, February 2, 1922

Following were the prices realised at our Auction this week:

Sheet:

	per lb. @ Cts.
Awarded Standard Ribbed	31-30½
Equal to Standard Ribbed	30½-30
Off Quality Ribbed	29½-25½
Crepe:	
Awarded Standard 1st Latex	31
Equal to Standard 1st Latex	30-29
Off Color Latex	28½-26
Fine Brown	27-26
Good Brown	25½-23
Good Dark	24-22
Barky	22½-20

Catalogued for Sale 1,882,964 lbs. (about 841 tons).

Offered 1,695,677 lbs. (about 757 tons).

Sold 1,458,431 lbs. (about 651 tons).

Since our last report there has been some slight fluctuations in the consuming markets, but liquidations continue in consequence of which no improvement may be expectd in the near future. London was this morning reported down to 8⅞d., and New York down to 16 cents. The Chinese New Year holidays have interfered with the local market, which has been rather stagnant.

There was a good demand at the weekly auction today, and bidding was fairly keen throughout the sale with prices showing a slight advance on the week.

The total quantity catalogued for sale was 841 tons, and of these 757 tons were offered and 651 tons sold.

Awarded Standard Ribbed Smoked Sheet sold up to 31 cents, but during the day sagged to 30½ cents, at which figure, however, some sellers withdrew their lots. One lot in cases sold at 31½ cents.

Sheet equal to Standard was in great demand, and also F.A.Q. Sheet found ready buyers.

Only one lot of Awarded Standard Crepe was sold, fetching 31 cents; this rubber was packed in cases. The market price may be given as 30½ cents, which marks an advance of about 1 cent.

Crepe equal to Standard was in fair demand.

Off Color Latex was wanted.

Brown, Dark and Barky Crepes sold to an interestec market at prices on an average unchanged on the week.

Prices declined slightly in the afternoon, but the demand was still fairly good. The tendency at the close, however, was easier.

Border Cities Ask Protection

(China Press Service)

Washington, Feb. 11.—Returning from a tour of United States Army camps, Major General James G. Harboard today stated that every community on the Mexican border wants larger army establishments.

General Harboard said that he had found strong sentiment in the southwest and south that the Army should not be reduced. He said that in several places the quarters supplied the army detachments were "shamefully inadequate" and were not as good as those furnished prisoners in progressive communities.

Recognition Of Obregon Urged

(China Press Service)

Washington, Feb. 11.—Representative Ryan has introduced a resolution in the House of Representatives calling on the Harding administration to recognise the Obregon government in Mexico.

Military Bases Offered To U.S.

(China Press Service)

Washington, Feb. 11.—Secretary of the Navy Denby has requested authority from Congress to accept without cost to the government the sites offered at San Pedro for a submarine base, the Alameda naval base, and the Sandpoint, Wash., aviation base.

Goes To Mukden With Olive Branch

(Reuter's Pacific Service)

Peking, Feb. 9.—Mr. Chao Erh-hsun, Viceroy of the Three Eastern Provinces prior to the Revolution, started for Mukden yesterday. It is generally understood that his mission is to bring about an understanding between the Chihli and Mukden factions.

TREATY SIGNED

(Reuter's Service)

Washington, Feb. 11.—The American and Japanese representatives have signed the Treaty, settling the prolonged Yap controversy.

$30,000,000 Ship Merger To Wait

(Special To The China Press)

Washington, Feb. 11.—Chairman Albert D. Lasker of the Shipping Board said today that the proposed $30,000,000 merger of shipping board interests on the Pacific Coast would probably not be completed until action is taken by Congress to provide relief for American shipping interests in order that shipping board vessels might receive an increased value resulting from the government assistance.

Bodies Piled Like Wood In Russia

(China Press Service)

Volga, Feb. 11.—The Russian steppes will be strewn by Spring with the skeletons of a hundred thousand persons who have fallen in the quest for bread. Millions are wandering about aimlessly in the region west of the Volga in search of sustenance.

The dead in the typhus ridden railway centers and other towns are piled up like cordwood in snow covered heaps awaiting burial. Freezing refugees have removed the clothing from the corpses.

American corn is arriving too late. The entire population of villages in the East Volga district has been eradicated. Bodies have been found lying along the railroad right of way and are being brought into the towns to be piled together in the snow.

Clue In Taylor Case Proves Vain

(China Press Service)

Los Angeles, Feb. 11.—Howard Fellows, chauffeur for William Desmond Taylor, moving picture director who was mysteriously slain in his home here, said that Taylor told him to telephone the Taylor home at seven-thirty o'clock on the night of the murder.

Fellows says that he telephoned, but received no answer. He then drove to the house and rang the bell. When he received no answer, he departed.

It is believed that Fellows is the man whom neighbors said they saw on the front porch of the Taylor home some time that evening.

Encouraging Democracy In China

BY JOSEF W. HALL

ONE of the first official acts of the new Minister Plenipotentiary of the Republic of France, His Excellency Count de Fleuriau, has been to send a note to the Minister of Foreign Affairs requesting the Chinese government to suppress the publication of a history text-book being put out by the Commercial Press, Shanghai. His Excellency the Count takes offense, on behalf of his country, at some of the statements made regarding the manner in which France came into possession of Annam, or l'Indo-Chine, and bases his demand for the deletion of these statements on the ground that the language employed is prejudicial to Sino-French relations.

The writer has seen neither the book nor the official protest thereanent, and must base his comment upon the reports which have emanated from the Ministry of Foreign Affairs, and the Ministry of Education, to which the matter was referred. He understands that the Ministry of Education has opined that since the book was not issued under its direction nor with its endorsement, and since its publication is a non-official enterprise, it is unable to order the Commercial Press to suspend publication pending a revision.

Not much comment is required upon such an incident. Could one imagine the French Ambassador at London demanding that the British Government suppress Carlyle's History of the French Revolution, or even H. G. Wells' comments upon recent French militarism? Or is it possible to conceive the French plenipotentiary at Washington requesting Secretary of State Hughes to compel Scribner's to suspend publication of some text-book dealing with French attempts to ignore the Monroe doctine and monarchical plots in Mexico during the American Civil War? Or would the Ambassador at Tokio undertake a similar mission?

Must the Chinese, alone, be made to understand that the *faits accomplis* of the great powers are sacrosanct, and that their sins, if sins they are, must not be mentioned to the rising generation, and that no unfavorable interpretation of their imperial aggression must be included in text-books?

If the Minister Plenipotentiary of France, which is popularly believed to be the home of liberty of speech and freedom of press may request the Chinese government to suppress something unofficially published in China which wounds the susceptibilities of himself and his countrymen why blame Chinese militarist chieftains who restrict comment and censor news damaging to themselves?

The Commercial Press is a responsible and highly respected institution, and is generally regarded as one of the greatest factors in the educational uplift of China. Its text-books are edited by men who hold degrees from the best universities of the west. Once before to the writer's knowledge the Commercial Press was, at the instance of a foreign power, asked to suppress a publication for political reasons. This was no text-book, edited by the Press itself, but a piece of job-work, contracted by the job-printing department, without question as to its content. It proved to be a rabid pamphlet by a leading Indian revolutionist. The time was a critical period of the war. The British authorities demanded the suppression and confiscation of the publication, and the matter was amicably settled between a local British official and the management of the publishing house.

The British action was justified by necessity, not by international law, as China was at that time a neutral, and the Commercial Press works are located on Chinese soil. But there is considerable difference between a publication intended to encourage revolution in a neighboring country during war time and casual critical comment in a Chinese text-book on the manner of a power's acquisition of a one-time dependency of China. The Japanese have been imprecated in practically every Chinese publication during the past seven years, but have had too much common sense to ask through formal diplomatic channels for the suppression of these publications. Does the Count think this is Germany, or Morocco?

Pilotless Planes Run By Wireless

In addition to controlling the flight of an aeroplane by wireless, attempts are being made in France to devise mechanism to enable a plane not only to ascent pilotless but also to land without any hand on the controls.

Devices in course of perfection show wonderful ingenuity. In one case a machine without a pilot, its engine having been started, runs across the aerodrome causing to revolve at a rapidly increasing pace a small two-bladed fan or screw between the wings. The fan as soon as it turns a certain number of revolutions actuates mechanism which places the control surfaces of the machine in the right position for ascent, its manoeuvres while aloft being controlled by wireless.

When the time comes for landing the tap of a ground-wireless key has the effect of unrolling beneath the aeroplane a length of wire with a weight at the end. This weight, touching ground while the machine is at some little height, switches off the engine and causes the rear surfaces of the plane to set themselves in such a position that the landing wheels of the machine make a smooth contact with the ground.

French wireless control of aeroplanes has achieved already a notable triumph. A large machine was taken up by its pilot, who left the controls and allowed the machine to be manoeuvred for more than an hour by wireless operators in a land station far below. At a given signal the pilot resumed control and landed.

The Japanese Conspiracy In Eastern Siberia--II

BY FREDERICK McCORMICK

Major Clarke, member of the American railway mission, and American representative of John F. Stevens and the Inter-Allied Technical Board in charge of Siberian railways, is under guard alongside the American cruiser Albany at Vladivostok. From what we have experienced in the murder of Lieutenant Langdon near this spot, it is unsafe and has been decided to be inadvisable for Major Clarke to move until the story of the diabolical plots of Japan against the United States in Siberia and China is published broadcast throughout the world, and the Emperor of Japan personally has pledged the safety of Americans within reach anywhere of Japanese arms, Japanese police, and Japanese military and civilian fanatics.

Major Clarke has not moved, and he has been virtually prisoner for more than two months on a little siding of the Trans-Siberian Railway terminal tracks thirty yards from the Albany moorings. Not until the world is in possession of the documents in these plots, and is acquainted with their meaning, will it be determinably safe anywhere under the Japanese flag, and certainly not within the zone of Major General Tachibana's operations extending along the whole Maritime Province, for the individual American to live or move.

Up to the moment of writing this statement of sinister fact drawn from occurences to others which I have witnessed, from unmistakable and uncontrovertible documentary proofs, and actual personal physical struggle with hired Russian assassins, alone, in the wilderness, in the night, in a flight of over a hundred miles to get into touch with the outside world, I have had in my hands for study and have examined nearly thirty original official documentary texts or certified copies of them, all covering Japan's plot staged at Vladivostok.

These documents show that Tachibana recognised, or was made to recognise, that he had a free hand at least from last June. I passed through Japan at that time, and the Japanese press contained the announcements that the soldier who had murdered Lieutenant Langdon had committed hari-kiri. His division commander, General Satow, late of Vladivostok, had died some months before, also accused of having committed suicide. And although the Ministry of War in Tokio made it a point in each case to issue an official statement to the effect that evidence that either of these persons had taken his own life had not been established, the accusations have not been successfully refuted. And wherever there is a proper realisation of what Japan is doing in the pursuit of foreign ambitions, the belief is established that if these men took their own lives it was done so that the Emperor, the Government, the military caste to which they belonged, and themselves, might be exonerated in Japanese eyes, the ground cleared for their successors, and the moral teachings to Japan of their example bequeathed to their military associates and to posterity.

PARTISANS USED

Mr. John F. Stevens returned to East Siberia at this time, and General Tachibana began the immediate application of the plot of Japan shown in the documents and the acts put into execution to carry it out. It is a far more disreputable plot than before, and one devised so that it will not trade a Satow, or a Satow and an Ogasawara, for a Langdon. It uses Russian mercenaries which may be called "partisans," so that they need not be known, much less apprehended.

Tachibana is under full headway, and his plots are in full swing. If he, the Imperial Japanese Army General Staff and Ministry of War, in Tokio and the Government of Japan were restrained by any considerations of any kind in forcing the situation between the United States and Japan to this issue, such restraint disappeared entirely when Mr. Stevens left Harbin and Japan, and went to Washington to be present at the Pacific Conference.

Following are original texts of documents from the Japanese High Command in Siberia, Major-General Tachibana, concerning Major F. M. Clarke and other Americans:

Document one states to the head of the newly set up Japanese regime in Vladivostok, President Merkuloff, that the work of his government and of the Japanese High Command are mutual, and that the Japanese High Command expects the Administrative Militia Section and Intelligence Division (Police) to report regularly to the Japanese High Command. This and all other communications for the new regime are addressed to President Merkuloff.

1048-2-VI-21.

June 2.
S. Merkuloff.

(The above in handwriting).

Dear Sir:

Your honorable letter of May 30, current year refering to commencement of work of the Administrative Militia Section, also about its personnel, is noted by us.

Japanese Command expresses its hope that thanks to the experiences of the people placed at the head of the Section, its work will reflect beneficially on the political situation of Pri-Amur.

Japanese Command supposes that the Chief of Administrative Section will be kind enough to keep on communicating regularly in future, in order that there would not be any misunderstanding in the mutual work.

Captain of General Staff,
Simmamoto.

Document two sends to President Merkuloff an accusation against Americans in Vladivostok in preparation for "provocations" (frame-ups), to be brought against them later. In this document the Japanese High Command accuses Major Clarke of being a "friend of all Bolsheviks," and pursuing personal ambitions, and says the High Command has weighty documental information about all the persons named which shows that these "gentlemen" can do the most harm to Russia.

Dear Sir:

Am communicating for your information a list of American Agents who are sympathising with the Bolshevik-Communistic Party and assisting realisation of the Communistic ideas in Pri-Amur:

1. Mr. C. Smith, unofficial diplomatic Representative of U. S. A. In 1918 was appointed Administrator of Supply of the Inter-Allied Railway Commission. Was working in friendly contact with Colonel Zavoiko, a friend also of Shatoff and Koshevnikoff.

2. Major Lively, Chief of the liquidation committee American Red Cross. Delivered to the Workers Red Cross medicaments and dressing materials for the supply of Red Forces. Made a trip to Chita to Krasnostchekov-Tobelson for secret negotiations of diplomatic character.

3. Major Clarke, Chairman Technical Section Inter-Allied Railway Committee. Friend of all Bolsheviks. Working for the good of Far Eastern Republic to personal advantage.

4. Mr. Cook, supervisor of a net of minor spies (Russian), also instructing them. Reporting to C. Smith.

5. Mr. Hagood, merchant, supplying Bolsheviks with various goods. Through the Hagood office is passing a correspondence of secret political character.

We think the above mentioned list of the chief and most dangerous American Agents should very much interest you, because these are the gentlemen who may render most harm to the Russian National Government.

The Staff of Japanese Expeditionary Forces in Siberia have in its disposal sufficient weighty documental information about their work of decomposing Russia.

June 20, 1921.
No. 352/c.
Chief Office of the Staff of Japanese Forces in Siberia.
To: Chairman Provisional Pri-Amur Government.

Document three begins a campaign against the American Radio Station on Russian (Kasekevitch) island lying in front of Vladivostok harbor, and asks President Merkuloff to use arms against the men of the American detachment in possession of it.

2485-16-VIII-21.
Copy to Commander of the Army.
August 16th.
S. MERKULOFF.

(The above in handwriting).

Dear Sir;

Being ordered by the Commander of the Expeditionary Forces in Siberia, General Tachibana, am communicating for your information, that it would be extremely undesirable for Japanese Command, if the negotiations regarding the surrender to concessional possession of the Marine Radio Station (in Bay of Vocvoda) to the American Command ever would take place.

As for the restraint of American soldiers and sailors, it is possible to apply armed Russian force.

Be kind enough to communicate for his information, to the Commandant of Russian Island through the Commander of the troops General Versjhitsky about the possibility of applying of arms, for the restoration of order and maintaining of prestige.

COLONEL ARANO.

August 15th, 1921.
No. 391-45-c.
Chief Office of the Staff of Japanese Forces in Siberia.
To: Chairman Provisional Pri-Amur Government.
S. D. MERKULOFF.

Document four makes out that the American sailors at Vladivostok are corrupting the refugee Russian soldiers from the Black Sea recently brought by England to Vladivostok for repatriation, and orders President Merkuloff to commence a campaign of defamation of Americans by scandals perpetrated against them on Russian Island.

3546-9-IX-21.

For information,
S. MERKULOFF.

(The above in handwriting).

Dear Sir:

According to the information received by us, American sailors are agitating among the officers and soldiers who arrived on the s.s. Franz Ferdinand from India. The sailors seem to be subsidised with money by persons interested in this.

Japanese Command proposes, that the Administrative Section will despatch its agents to the neighborhood of the Radio Station and by a line of scandals will discredit the Americans before public opinion.

Captain of General Staff,
KOORASITA.
Main Office of the Japanese Forces in Siberia.
To: Chairman Provisional Pri-Amur Government.
S. D. MERKULOFF.

I have described the appalling event called the "search" of Major Clarke, which took place October 23 sanctioned by the American Consul. In the Inter-Allied Technical Board counsels at Harbin, the decision was reached that had Major Clarke mistakenly offered resistance to the infernal imposition thought out during three weeks, had the repulsed Colonel Bogoslovsky and his men at the wilderness Vosdvishensky siding west of Nikolsk, he would have been killed instantly and his car planted with incriminating papers, arms, and even dummy Bolsheviks, to excuse the murder, blackguard American representatives in Siberia before the people of the United States and the outside world, as provided for in the accompanying documents, and condemn the last of Russian administrations as criminally depraved and incompetent.

CLARKE'S HEAD COOL

Taking into consideration the circumstances at first hand, and knowing the ground where this plot was executed and so narrowly foiled, it seems to me that the best friend of humanity on the occasion of this performance was the cool head of Major Clarke, and the fortunate circumstance that he did not lose his temper and presence of mind.

After Clarke was searched, and after the signing of the protocol of the search, before the American Consul and Captain Moriarty, Commandant of Marines, left his car, Major Clarke asked these men for a guard from the cruiser Albany to be placed on his car. Captain Moriarty stated that so far as he was concerned the guard could be given, and the American Consul undertook to see Captain Richardson of the Albany and ask for the guard.

This was evening of October 23. October 24 passed without any guard being sent, and without satisfaction or word from the American Consul or Captain Richardson. And owing to the fact that his car still was watched by the Japanese and he was being followed by persons reported to him by his own railway service, Major Clarke on October 25 formally notified the American Consul that he was being shadowed, and desired to have these facts on record in case anything happened. Simultaneously General Tachibana cabled to Tokio that he had completed the arrangements for the act of terror with a "group of Administrative officers of authority," no doubt all the time held in reserve. And the documents show that he was anxious for final orders to go ahead.

October 26, in the morning, the American Consul went to see Major Clarke in his car in the railway yards and reported that after thinking over the situation he had decided to ask Clarke to remove to the Consulate, and live there where a room was at his disposal and where he could get his meals with the Consul and his family. Seeing this, General Tachibana sent a hurry call to Tokio urging the need of a prompt decision.

Clarke had removed to the American Consulate. The nights of October 26 and 27 he slept at the Consulate.

GETS MARINE GUARD

October 29, Major Clarke had his car moved alongside the U. S. S. Albany, a guard of U. S. Marines was placed on it, and there it remains.

The men at the head of the Vladivostock "government" do not claim any profound knowledge of international relations, or even administration, in East Asia

Chinese Engineering And Mining Company Pays 22 Percent

The net profits of the Kailan Mining Administration for the year ended June 30, 921, amounted to $7,313,448.46, acording to the report of the directors of the Chinese Engineering & Mining Co., Ltd., presented at the annual meeting held at Winchester House, Old Broad Street, London, on December 12 last. The mines of the Chinese Engineering & Mining Co. and those of the Lanchow Mining Co., Ltd., are carried on by the Kailan Mining Administration as a joint undertaking. The Chinese Engineering & Mining Company's proportion of the net profit was $3,850,012.82.

The annual meeting was presided over by Mr. W. F. Turner, whose speech to the shareholders was as follows:

"Gentlemen, the distinguishing feature of the report and accounts for the year ended on June 30 last, which we submit to you today, is that while owing mainly to the fall in the average rate of exchange, they deal with smaller figures than those of the preceding year, the net result is equally satisfactory. For the year ended June 30, 1920, we paid a dividend of 30 percent free of Income Tax, on a share capital of £1,000,000. The balance dividend of 12 percent which we propose to declare today will make, with the interim dividend of 10 percent paid in May last, a total of 22 percent free of Income-Tax, on the increased capital of £1,400,000, so that we shall be distributing £308,000 in dividends, against £300,000 in the preceding year. It must be borne in mind that the 400,000 new shares did not constitute any addition to the working capital of the company. It was merely the capitalisation of profits which had accumulated during past years.

"The net profit of the Kailan Mining Administration, after providing for interest on the 6 percent Kailan bonds, redemption of bonds for the year, reserve for depreciation, and the profit to which the Chihli Government is entitled, was $7,313,448, against a net profit of $8,917,456 for the preceding year. This result, as you will have seen from a later paragraph in the report, is due, not to any falling off in the demand for coal, but solely to difficulties in regard to railway transport, and it compares very favorably with the profit of about $6,000,000 two years ago.

"Our share of the profit amounts to $3,850,012. We were careful to point out to you at the meeting last year that the profits of that year had been largely increased by the high rate of exchange which had prevailed throughout the year. The average rate for the past year shows a reduction of about 2s. per dollar, and the amount brought to credit of our profit and loss account therefore works out, including interest in China, at £564,723. Interest in Europe is £72,221, and there are some small items which bring up the total to £641,469.

"Expenses in Europe are larger than before, as I told you they would be. There is a donation of £5,000 to the China Famine Relief Fund, which was reported at the last meeting; exchange amounts to £16,259, and there is a loss of £11,942 on the sale of 5 percent war loan. Two of these items, amounting to nearly £17,000, will not recur. The net balance of profit on the year is £587,994.

"You will find a statement on pages 10 and 11 of the accounts showing the disposal of the profit balance at June 30, 1920, the chief items being the final dividend, which was £200,000, paid on the 17th of December, 1920, and the £400,000 which was applied in making fully paid the 400,000 shares of £1 each allotted on the 12th of May last, pursuant to the resolutions of the extraordinary general meeting held on remaining is brought into the following year. We have, therefore, a total credit to Profit and Loss of £625,779. Income Tax absorbs £112,316. Excess Profits Duty requires £122,304 to bring up the reserve to the required figure of £189,000, and Corporation three items, making a total of £261,220, form our contribution to the Inland Revenue and, as you see, they amount to almost exactly 45 percent of the year's profit. The interim dividend of 10 percent, free of Income Tax, paid on May 23 last, was £140,000, so that we have a balance of £224,559 to deal with today.

"I have already said that we propose to declare a balance dividend of 12 percent, free of tax, payable tomorrow, the 13th instant. The further remuneration to which the directors are entitled under the Articles of Association is £9,133, and we propose to write off the whole of the expenses in connection with the increase of capital (consisting chiefly of Stamp Duties), amounting to £25,685, so that there will be a balance of £21,740 to be carried forward to the current year. This result is more gratifying when one bears in mind that the profits have had to bear a charge of £122,000 for Excess Profits Duty, and that the company's liability to that impost ends with these accounts. It is interesting to know that the company will have paid in all for Excess Profits Duty over £1,400,000.

"As regards the balance sheet, there are only one or two items to which I need refer. The first is the increase of the share capital from £1,000,000 to £1,400,000. On the other side of the account you will see that our Loan Account to the Kailan Mining Administration has been increased from £50,000 to £152,000, a sum of £102,000 having been provided by us and a similar amount by the Lanchow Mining Company for further working capital of the Kailan Mining Administration. It is quite likely that we may very shortly have to contribute another £100,000 of working capital.

"The next paragraph of the report relates to Excess Profits Duty and the directors' remuneration. There is a provision in the Finance Act of 1916 to the effect that a company may recover from the directors the amount of Excess Profits Duty payable by the company in respect of any increased remuneration above a certain limit. The object of the section was to prevent salaries or remuneration of employes or directors being increased capriciously for the purpose of reducing a company's liability to Excess Profits Duty. No consideration of that sort arises here. The effect of the section in our case would be to defeat, to a certain extent, the object of the resolutions passed by the shareholders last year, and it would operate inequitably as between the individual directors who are concerned. The amount involved is about £2,000. It is therefore proposed that the section shall not be acted upon, and I may add that a similar course has been taken in other cases of the kind.

"The next paragraph deals with the business done by the Kailan Mining Administration during the year. The sales of coal amounted to 3,775,000 tons, a reduction of 235,000 tons compared with the preceding year. This is not due to any falling off in the demand for coal. It is entirely a question of railway transport. Major Nathan reports as follows:

"The reduction recorded in sales is due to the following reasons: The internal troubles which occurred in the latter part of the last financial year and the beginning of this affected the transportation of coal for nearly six months, military interference on the railway and movements of troops decreasing the number of cars available for the coal traffic. No sooner were the troubles due to these causes overcome than the famine in Central China was again responsible for a reduction in our coal traffic, owing to the demands made on the railway for the export of grain from Manchuria for the relief of famine sufferers. These two reasons alone were sufficient to cause the reduction in sales which has been experienced during the year. The actual carrying capacity of the railway has not been greatly increased, the supply of trucks and locomotives having been practically stationary during that period. At the present time conditions are still unsatisfactory, although there is an improvement on our experience in the early part of the financial year under review. Towards the end of the financial year a great improvement was noticeable, largely due to the use by the Peking-Mukden Railway of cars belonging to the Peking-Hankow line, and for a short period we were able to move by rail an average of about 15,000 tons per day. As a result of a traffic conference between the various lines the supply of these cars has been much reduced and the average at the present moment may be said to be about 12,000 tons per day, including a traffic of about 1,000 to 1,500 tons per day carried by our own cars to Hsukochwang and Hanku, from whence the coal is shipped by boat to Tientsin. We were enabled to increase our traffic in this way by a purchase of 200 small cars from the railway which they had thrown out of use. The burden of my monthly reports, as will have been noticed, has practically always been the same, namely, the want of cars and consequent inability to keep pace with the demand. It has been my great endeavor to persuade the railway to double the track between the mines and Chinwangtao and to purchase sufficient rolling stock to meet our demands for transport facilities, and I am pleased to say that I have at last been successful in inducihg the authorities to carry out the doubling of the track and also the supply of further locomotives and cars. The effect of the latter will be seen, I hope, towards the end of the present calendar year, but that of the former, I anticipate, not before the end of 1922 at earliest.

"Now as regards the prospects of the current year, Major Nathan writes that:

"Sales of coal have been limited only to our transport facilities, and therefore no comparison can be made with former years as to the possibility of increase if facilities had been available for the transport of our coal by rail to Chinwangtao to meet the demand. It can only be said that we were obliged to neglect or entirely abandon any attempts to develop our overseas market. The same condition will apply to a certain extent during the present year, but the quieter conditions now prevailing in the country will undoubtedly have the effect of allowing of a considerable increase in our sales compared with last year. At the time of writing, in the first three months of the financial year 1921-22, our sales have augmented by a quarter of a million tons as compared with the same period in 1920-21. Although these figures are not likely to be maintained throughout the whole year, there is no reason to expect that our sales will not be considerably higher than in the year under review.

"The stock of coal at the latest date we have was about 370,000 tons. Our output capacity is 15,000 tons daily, and Major Nathan states that, given fair labor conditions, he has every expectation of reaching a total production of over four and a half million tons during the current financial year. The coal in sight at June 30 last is given as 24,435,000 tons. The yards at the port of Chinwangtao have been extended to allow the handling of 15,000 tons of coal per day and the storing of 260,000 tons. The sales of coal during the first twenty-three weeks of the current year amount to 1,841,000 tons, as compared with 1,521,000 tons for the same period last year, an increase in round figures of 320,000 tons. You will have seen probably from the press this morning that for the last week, included in the figures I have given you, the sales were a little over 100,000 tons. The average rate of exchange for the present financial year, so far as it has gone, is approximately 2s. 9d. per dollar, and does not differ materially from that of the preceding year. The business prospects therefore are entirely satisfactory.

"At the last general meeting we explained at some length the position of matters in regard to the project for the establishment of Iron Works at Chinwangtao. The matter has been followed up throughout the past year and considerable progress has been made. Mr. David Roberts, of Cardiff, who is a well-known blast furnace engineer, went out to China on behalf of Messrs. Riley and Harbord, to inspect and decide upon the best available site for the proposed works. A satisfactory site has been chosen, and the necessary arrangements in regard to it are in progress. Further investigations are proceeding, especially in regard to certain deposits of iron ore and the treatment of them and the question of treatment plant generally. These may still take a considerable time, and until they are completed a definite scheme cannot be formulated and adopted. In the meantime the prices of labor and materials are falling, and it is expected that there will be a saving of several hundred thousand pounds in the ultimate outlay for plant, compared with the figures which we had before us a year ago.

"I now move: That the directors' report and accounts to June 30, 1921, be, and they are hereby, received and adopted, and that a final dividend be declared of 12 percent, free of income tax, making 22 percent for the year, free of income tax, payable on Dec. 13, 1921."

Colonel H. A. Micklem, C. B., C. M. G., D. S. O., seconded the motion, which was carried unanimously. The chairman next proposed: "That the retiring Directors, Mr. Felicien Cattier, Colonel H. A. Micklem, and Mr. W. F. Turner, be, and they are hereby, re-elected." This was seconded by Mr. Edmund Davis, and unanimously adopted. The auditors (Messrs. Annan, Dexter & Co.) were reappointed, on the motion of Mr. Sledge, seconded by Mr. Dixon, and the proceedings terminated.

AUSTRALIA MOVES TO PROTECT HER TIMBER SUPPLY

The total value of hardwood timber production in Western Australia is now £60,000,000, and a virgin forest of 400,000 acres, equal to ten years' supply at the present rate of cutting, awaits the axe of the lumberman.

So far the disposal of West Australia's heritage of hardwoods has been on the lines of the glowing prodigality of famous goldfields. Until only very recently the forest wealth of the Western State of the Commonwealth was squandered with little or no heed for the future. The destruction of vast areas of mature hardwood, representing centuries of uninterrupted growth was wanton in extent and sometimes in purpose. A heritage was treated as a wasting asset.

The experiences of other lands at last provided a lesson for Australia where re-afforestation is not now regarded as revolutionary gospel of production. What has been aptly called "a forest conscience" has been quickened. It is recognised that forestry may be made a permanent and a very valuable industry.

This forest conscience is quick and keen just now in Western Australia, where the scope for forestry on modern plans for improvement of quality in timber as well as for a more profitable use of its products is illimitable. Past and present value of the state's splendid hardwoods is a great incentive to progress in scientific forestry.

Last year an exhibition of forest products was held at Perth (Western Australia) under the authority of the West Australian Council of Development. It was a noteworthy display revealing in interesting and informative forms the fine work of the Forests Products Laboratory.

The exhibits included samples of paper manufactured from Karri wood pulp. The scope for paper-making in Australia may be gauged by the fact that the newspapers of the Commonwealth use 60,000 tons of paper a year.

In the arts and crafts section of the exhibition there was an excellent display of jarrah, karri, sheoak and other hardwood timbers. There were samples of trees containing valuable drugs, gums, and oils all inviting research and development. It is nearly eighty years since merchantable gums were extracted from Australian timbers, but very little has been done towards developing this branch of the timber industry.

The exhibition showed clearly that Australia is unrivalled for utility timber of an enduring quality, and the demonstration of past neglect of a mighty asset should lead to rapid progress towards reviving the generous products of bygone centuries.

MINISTERS NAMED

(U. S. Navy Radio Through Reuter)

Washington, Feb. 9.—President Harding has nominated Mr. Albert Henry Washburne, of Massachussetts, as Minister to Austria and Mr. Theodore Brentano of Illinois as Minister to Hungary.

Banking Institute Night School Opens First Of Next Week

The Night School of the Chinese Banking Institute will open again on February 20. The Institute was organised last Summer by some thirty returned students from America who specialised in banking and allied subjects in American Universities.

The purpose and the regulations of the Institute are similar to those of the American Institute of Banking and the school was started soon after the organisation of the Institute. Teachers of the school are members of the Institute who have pledged themselves to teach their favorite subjects without any renumeration.

The Chinese Banks are supporting the Institute and have already sent a good number of young clerks and prospective clerks to the school to be trained in the higher ideas of conducting business and to attain better knowledge of modern banking.

The classes will be conducted in the upper rooms of the Chinese American Bank of Commerce. Mr. C. T. Tsai, M. A., of Columbia University and Dean of the school of commerce of Fuh Tan University, has been elected president of the school. Entrance examinations will be held in the bank building on the evenings of February 15 and 16, to this at home of the faculty.

Japanese Company Makes Reduction In Passenger Rate

A reduction of Yen 60 in the Trans-Pacific passenger fares for the four-berth cabins of the Nippon Yusen Kaisha steamers running between Oriental and Puget Sound ports has been announced, according to word received here from Japan.

The N.Y.K. is not a member of the Trans-Pacific passenger rate conference and therefore not bound by any agreements, but the reduction is said, nevertheless, to have created a considerable stir among competing lines. It is expected that efforts will be made to effect a compromise with the Japanese line and, failing that, a reduction to meet the competition is hinted.

Cantonese Army Moving, Report

(China Press Correspondence)

Hankow, Feb. 7.—Reports are again arriving here that the propagated anti-Peking expedition of Sun Yat-sen is materialising at Kweilin, where large blocks of southern troops from Kwangtung, Kwangsi, Yunnan and Kweichow aggregating some 60,000 men, are actually beginning to move northward and some already are in Hunan.

The news has not been confirmed at official sources, but a foreign traveler returning to Hankow from Kweilin brings back the news that mobilisation at Kweilin has begun. Another report from Changsha says that the headquaters of Canton's expeditionary forces has been removed from Kweilin to Yungchow, Hunan.

GOLD AS COMMODITY

(Reuter's Service)

London, Feb. 10.—In answer to a written question in the House of Commons the Chancellor of the Exchequer declares that the Government's intention is to re-establish the unrestricted market of gold in London at the earliest possible date, but that the question as to what extent notes will then be replaced by gold ultimately depends upon the action of the community itself.

STUDENTS PRINT CONSTITUTION OF HUNAN PROVINCE

The Hunan provincial constitution, consisting of 13 chapters and 141 articles and promulgated by Governor Chao Heng-ti on January 1, 1922, has just been published by the Hunan students in Japan and a few copies have reached Shanghai. While the document is quite lengthy, it has been carefully worked out by scholars of constitutional law, both native sons of Hunan and authorities from other provinces, and presents a concise definition of the rights and obligations of Hunan as a province.

Motion to draft the constitution was passed at the Hunan Provincial Assembly early in 1921 when a Bureau for the Drafting of the Hunan Constitution was established in Yo Li San, Hunan. Leading authorities on constitutional law met and deliberated for 40 days and produced the draft. Representatives of the 75 cities of Hunan then scanned and revised the document before it was presented to the populace of the province in its final form for adoption on December 11, 1921. It was adopted by a two-third majority.

At the same time, five sets of bye-laws were also adopted. They are the bye-laws on the election of the civil governor, on the organisation of the provincial assembly, on the election of assemblymen, on the election of the city legislature and on the organisation of the judiciary.

The 13 chapters of the main constitution covered the general definition of the Hunan Constitution, rights and obligations of the citizens of Hunan, civil administration and governor, provincial legislature, provincial executives, provincial judiciary, the auditing bureau, municipal government in the cities, local government in the counties, amendments and bye-laws.

Canton Passing Financial Crisis

(Reuter's Pacific Service)

Peking, Feb. 8.—According to semi-official reports from Canton the Canton Government is passing through a financial crisis. Military administrative expenditure is reported to be $10,000,000 in arrears, and ordinary military expenditure $8,000,000 in arrears, while the Government has not been able to provide the following sums for civilian departments: Home Affairs, $2,200,000; education, $100,000; Naval affairs, $120,000; legislation, $100,000; and justice, $200,000.

Two warships, the Kiungku and the Kiungkeng, carrying machine guns and ammunition, have been sent from Canton to Kuangsi, where they will be available for Dr. Sun's expedition.

Dr. Wu Ting-fang gave a New Year reception, which was attended by the Consular representatives of Britain, America, France and Japan and a hundred civilian guests of both sexes.

Franco-Czech Economic Pact

(Chung Mei News Agency)

Paris, Feb. 7.—At Qui d'Orsay on Monday Poincare, the French Premier and Eamoyski, the Polish Minister to France, signed the long-contemplated economic treaty, that completes the political agreements already in force.

The economic agreements include first, commercial matters, second, agreements on private property and other interests, and third, the working of the naphtha fields.

Members of the Czecho-Slovak mission who have come to France to negotiate a treaty of commerce were received on Monday at the Interallied Union in Paris by Minister Dior of The Ministry of Commerce and N. Deparrotti, Director of Political Affairs. Mr. Dior delivered an address in which he said that France and Czecho-Slovakia were two countries whose economic and political interests dovetailed.

Negro Migration To Northern U. S.

(Chung Mei News Agency)

Washington.—Figures recently published by the United States Census Bureau give an approximate estimate of the number of Negroes who came from the Southern to the Northern states in the migration which attracted national attention two or three years ago. These figures confirm the impression that the movement was quite unusual.

The number of southern-born negroes living in the north increased from 440,000 in 1910 to [illegible] in 1920. At the beginning of the decade they formed forty-one percent of the total negro population of the north; at its close they formed fifty percent.

There was some migration in the other direction, but it was comparatively small—only 47,000 Negroes living in the south were born in the North.

Joffre Sounding Japan On Russian Issue, Says Peking Vernacular Paper

(Chung Mei News Agency)

Peking, Feb. 10.—Word has been received from the Chinese minister at Tokio that Marshall Joffre will reach Mukden on approximately the twenty-second of this month and Peking on the twenty-fifth. While in Mukden he will be officially welcomed and entertained by General Chang Tso-lin who is reported to be making great preparations for the entertainment of the distinguished French general. While in Peking Marshall Joffre will be officially entertained by the Chinese Government and although no definite news of his plans is available he is expected to remain in Peking for about ten days.

Considerable curiosity has been aroused as to any political significance that may be attached to the marshal's visit to the Orient. A long report appears in today's issue of the Chen-Pao, supposedly emanating from American sources, to the effect that Joffre's visit to Japan was for the purpose of ascertaining the Japanese attitude toward Soviet Russia and the Far Eastern Republic and also to discuss with the Japanese authorities certain plans for Franco-Japanese co-operation in dealing with Siberia. Information from Russian sources in Peking would indicate that the opinions of the Chen Pao are shared by people well informed on the political relations of France, Japan, and Russia.

The report in the vernacular paper says that France and Japan are very much at one in their attitude toward Russia, and that France with her dislike of the admission of Soviet Russia into international conferences is feeling it more and more necessary to co-operate with Japan. Marshal Joffre's trip to the Orient is consequently nothing more or less than a visit to Japan to discuss the situation with Japanese officials and to conclude with them an entente in relation to their Russian policy.

The proposed agreement is forecast by the Chinese paper as dealing largely with the future and the action of France and Japan in case one or the other should become involved in war with Russia, each country agreeing to come to the assistance of the other and to take common military measures. French support of Poland is also to be stipulated.

Marshal Joffre is also, said, the article goes on, to have proposed that France and Japan adopt a common policy for the Genoa Conference with the idea of preventing recognition of Russia and any form of economic assistance on the part of the powers. A stipulation that Russia honor all debts contracted by the former government and also pays all damages sustained by allied troops in Russia since 1917 is another policy that Japan and France are supposed to have discussed through Joffre.

(Reuter's Pacific Service)

Peking Feb. 9.—The Government has received a telegram from Mr. Hu Wei-teh, Minister to Japan, saying that Marshal Joffre, accompanied by his wife and daughter and his attaches, will leave Tokio for China on the 25th instant. Mr. Hu asked the Cabinet to arrange for a suitable reception.

Japanese Conspiracy In Siberia--II

(Continued from Page 12)

and the Pacific. They are business men, and the extent of their international knowledge is confined to their relations with Japan. I called on these men and found that they did not appear to understand the significance of what they were being made to do. So I put the following before Mr. Spiridon Merkuloff whose name appears in nearly every one of the documents which I have quoted. I prefaced as follows:

In Siberia the United States has no officials or war ships northward of Vladivostok. The points of intimate conflict to the south are represented by Tsingtao and Yap; and there are no military forces at these places. Vladivostok is the place of most intimate Japanese-American contact in the Pacific area, and this point is the most important to Japan and America in connection with the Pacific Conference at Washington.

I stated that success for the Pacific Conference had been made dependent upon limitation of armaments. Limitation of armaments would arrest military expenditures; arrest of military expenditures would take from the Military Party in Japan the control of the budget; and in consequence the direction of the Government. And the Military Party would start on its decline. My question was: Would the militarists submit to this? and if not, how far would they go, and what means would they take to prevent it? In other words how far would General Tachibana go, at Vladivostok?

President Merkuloff held his breath. And when I finished he exclaimed: "I never thought of it."

Then I went over it again, point by point. And at the end he said deliberately and positively. "War would save the Military Party."

Salt Officials Deny Report Of Hankow Seizure

(China Press Correspondence)

Hankow, Feb. 7.—The report published in Chinese newspapers of Shanghai that General Wu Pei-fu's troops at Hankow seized the Salt Gabelle building in the French Concession of Hankow demanding money before the previous China New Year crisis has been denied by foreign authorities of the salt administration in Hankow.

According to Mr. Esson M. Gale of the Salt Gabelle, nothing of the kind happened, and men of his office are anxious to know the origin of the false report.

WINE TRADE STRIKE

Hankow, Feb. 7.—Members of the Wine Trade Guild of Hankow are continuing their strike against Wu Pei-fu's excessive taxation, and all wine shops and breweries in Wuchang and Hankow have determined to postpone resumption of business after the China New Year holiday season. The Tobacco Guild have adopted the same measure to defy military taxation.

The Chinese Chambers of Commerce of Hankow and Wuchang are now stepping into the breach with the view of urging wine and tobacco strikers to resume business, during which they will approach the governors and General Wu Pei-fu to have the protested tariffs revoked.

Premier's Wife Breaks Tradition

(Chung Mei News Agency)

Peking, Feb. 10. — Madame Liang and her daughter acted as hostesses at the dinner given recently to the foreign diplomatic corps which was to have been presided over by the premier. Some seventy guests were entertained.

Premier Liang Shih-yi's absence was occasioned by the leave from official duties which has been granted him by the president and his consequent journey to Tientsin. Until almost the last moment it was not known in foreign circles whether Liang would return to Peking for this annual spring reception to foreign diplomats accredited to the Peking Government. It was said at the Foreign Office today that this was the first time that a Chinese woman had ever presided at an official social function of this kind.

Geddes Would Cut Overseas Forces

(Reuter's Service)

London, Feb. 10.—The Geddes' report further recommends that the War Office should economise on overseas garrisons generally by withdrawing or reducing the battalions and employing native instead of British troops.

The report proposes specified changes in Malta, Gibraltar, Egypt, Palestine, Singapore and Ceylon and declares that military reasons for stationing two infantry battalions in North China do not exist.

The adoption of the proposals would result in the reduction of 25 battalions and 12 depots.

PIRATES ROB TRAIN

(Reuter's Pacific Service)

Hongkong, Feb. 11.—Pirates yesterday evening held up a third-class express train near Shekiung, on its way to Canton from Kowloon. They robbed the passengers and carried off the booty. No arrests have been made.
